X) You are instructed to conduct a full field investigation concerning the above-named individual. This investigation is to be assigned immediately and the results mailed to reach the Bureau by May 14, 1951.

() You are instructed to conduct a preliminary inquiry concerning the above-named individual. This investigation is to be assigned immediately and results mailed to reach the Bureau by _____. As you are aware, when a preliminary inquiry is conducted in an LGE case, you should determine whether there is sufficient information available to warrant a full field investigation. If so, the case should be converted into a full field investigation and the Bureau and auxiliary offices advised promptly by teletype. Any necessary leads should be set out. If not converted, your preliminary inquiry should be sufficiently complete to resolve the question of loyalty and sufficient information should be furnished the Bureau to justify your determination that no further action is warranted.

If it is determined that the captioned person is known by names other than those appearing in the caption, the Bureau and Washington Field Office should be advised so that the additional names may be checked against appropriate records.

Attached for your assistance is a photostatic copy of the Request for Report on Loyalty Data furnished to the Bureau on this individual.

Bureau files contain the following information regarding this person:

Reference is made to Albuquerque Office file 52-3 entitled "Unknown Subjects: Theft of Classified Material and 16 MM Eastman Kodak Motion Picture Camera, SN 73469, at Las Cruces, New Mexico-Theft of Government Property," El Paso Office file 52-1281 and

Baltimore Office file 52-1840. It is noted that Singer was not prosecuted in instant case, although the Department of Justice indicated he may have been negligent in maintaining proper security of classified material.

The Department of the Navy has requested a full field investigation of Singer under the provisions of Executive Order 9835. Attached for the assistance of all offices are photostatic copies of a memorandum dated November 27, 1950, which was received from the Department of the Navy.

The Washington Field Office should immediately review Singer's personnel file and set out any necessary leads.

This matter must be assigned to experienced agent personnel who are familiar with loyalty type investigations.

For your information, the Department of the Navy has been requested to conduct the necessary investigation outside the territorial limits of the United States.

The Washington Field Office in its investigative report should set forth the "Personal History" and the Baltimore Office should set forth the "Basis for Investigation" which should include a statement that this investigation was requested by the Department of the Navy.

1. This form (Standard Form 85) is promulgated by the United States Civil Service Commission at the request of the Federal Bureau of Investigation for the purpose of carrying out the responsibilities with respect to applicants for Federal employment and persons appointed to Federal positions after September 30, 1947 as provided in Part I of Executive Order 9835.
2. A separate form (Standard Form 84) will be used for excepted employees when investigation is conducted by the agency.
3. The Fingerprint Chart (Standard Form 87) of the applicant or appointee must be submitted with the original and two copies of this form. The third carbon copy of the form should be retained by the agency.
4. If additional space is needed in filling in Items 14 and 15, use a separate sheet of paper, number the item to correspond with the item number of this form, and attach.
5. If the requesting agency has previously received loyalty information from any Government agency (including the Federal Bureau of Investigation) concerning the employee named in this form, the name of the agency which furnished the information and the date of the report should be shown in Item 16.
6. Item 17 is reserved for use in reporting on this request when no derogatory information is developed.
7. Whenever information is developed, the report will be covered in Item 19 above.
8. For further details regarding the use of this form, see the Federal Personnel Manual.

Reference is made to a copy of a memorandum directed from the Director of Naval Intelligence to the Distribution List captioned, "Suspected Espionage Activities on the Part of Singer, Siegfried Fred," furnished to this Bureau through liaison channels.

It is alleged in the referenced communication that the captioned individual possibly may be engaged in activities of a subversive nature in view of his association with individuals who allegedly have manifested pro-Communist tendencies.

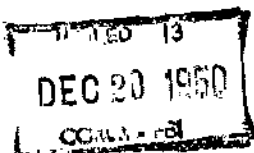

A review of the files of this Bureau has failed to disclose any additional information bearing upon the loyalty of the captioned individual in addition to the data set forth in the referenced memorandum.

For your information the captioned individual has not been investigated by this Bureau under the provisions of Executive Order 9835. At the same time, this Bureau has no record of the captioned individual's employment by the United States Government. No further investigative action regarding the instant matter is contemplated by the Bureau in the absence of a specific request.

In the event that you deem it advisable to request a full field investigation of the captioned individual it would be appreciated if you would furnish this Bureau copies of the captioned individual's Loyalty Form and Personal History Statement, assuming that Singer is employed in a capacity falling within the purview of Executive Order 9835. At the same time it would also be appreciated if you would furnish the Bureau copies of reports covering investigation which may have been conducted by you concerning Singer.

Reference is made to a copy of a memorandum dated December 26, 1950, directed from the Director of Naval Intelligence to the "Distribution List" furnished to this Bureau through liaison channels. The referenced communication reflected that the captioned individual may fall within the purview of Executive Order 9835. It is also stated that the "Office of Naval Intelligence will appreciate the advice of the FBI on this matter."

Your attention is invited to a letter from this Bureau, dated December 19, 1950, bearing the above caption, wherein it was indicated that no further investigative action concerning this case was contemplated in the absence of a specific request. It will be noted that it had not been made clear to this Bureau if the captioned individual was employed in a capacity falling within the purview of Executive Order 9835. In this connection, it was requested in the letter dated December 19, 1950, that you furnish the Bureau copies of the captioned individual's Loyalty Form and Personal History Statement, in the event that you desired a full field investigation under the provisions of Executive Order 9835.

In view of the above, no further action will be taken by this Bureau pending the receipt of your reply to the letter dated December 19, 1950.

PURPOSE:

To ascertain from the Department of the Navy if the captioned individual is employed by the U. S. Government and if action is desired of the Bureau under the provisions of Executive Order 9835.

BACKGROUND:

In a reply to a request from the Department of the Navy, the Bureau by letter dated December 19, 1950, advised the Navy that the Bureau files do not contain any information indicating that the captioned individual had been investigated under the provisions of Executive Order 9835 or that he had been employed by the U. S. Government. At that time the Navy was advised that no further action would be taken by the Bureau in the absence of a specific request. The Bureau then received a copy of a memorandum dated December 26, 1950, directed from the Director of Naval Intelligence to the "Distribution List," captioned "Singer, Siegfried Fred" setting forth a list of individuals with whom the captioned individual allegedly had corresponded. This memorandum points out that there was a possibility that Singer may fall within the purview of Executive Order 9835. The closing sentence of the memorandum read, "The Office of Naval Intelligence would appreciate the advice of the Federal Bureau of Investigation on this matter." By letter dated January 17, 1951, the Bureau called the Navy's attention to the Bureau letter of December 26, 1950. The Navy has now furnished the Bureau a memorandum dated January 24, 1951, concerning Singer, setting forth additional information regarding the captioned individual's correspondence.

The situation is such that the Bureau has advised the Navy that no action is to be taken and that if action is desired the Navy should accordingly advise the Bureau and furnish pertinent background information regarding Singer. The Navy continues to send memorandums regarding the captioned individual, but there is nothing indicating that attention has been given to the Bureau's communication directed to the Navy.

For the information of the Liaison Section the Navy's memorandum concerning the captioned individual carried a referenced file number "Op-321E."

Navy letter to Bureau dated 2/21/51 reflects gov't employment. Navy desires full investigation
CHS

RECOMMENDATION:

It is recommended that the Liaison Section review the instant matter with the Department of the Navy; (1) Is the captioned individual employed under the provisions of Executive Order 9835, (2) If so employed does the Navy desire a full field investigation under Executive Order 9835.

That if a full field investigation is desired by the Navy it is recommended a copy of the captioned individual's Personal History Statement be furnished by the Navy to the Bureau.

PURPOSE:

To ascertain from the Department of the Navy if the captioned individual is employed by the U. S. Government and if action is desired of the Bureau under the provisions of Executive Order 9835.

BACKGROUND:

In a reply to a request from the Department of the Navy, the Bureau by letter dated December 19, 1950, advised the Navy that the Bureau files do not contain any information indicating that the captioned individual had been investigated under the provisions of Executive Order 9835 or that he had been employed by the U. S. Government. At that time the Navy was advised that no further action would be taken by the Bureau in the absence of a specific request. The Bureau then received a copy of a memorandum dated December 26, 1950, directed from the Director of Naval Intelligence to the "Distribution List," captioned "Singer, Siegfried Fred" setting forth a list of individuals with whom the captioned individual allegedly had corresponded. This memorandum points out that there was a possibility that Singer may fall within the purview of Executive Order 9835. The closing sentence of the memorandum read, "The Office of Naval Intelligence would appreciate the advice of the Federal Bureau of Investigation on this matter." By letter dated January 17, 1951, the Bureau called the Navy's attention to the Bureau letter of December 26, 1950. The Navy has now furnished the Bureau a memorandum dated January 24, 1951, concerning Singer, setting forth additional information regarding the captioned individual's correspondence.

The situation is such that the Bureau has advised the Navy that no action is to be taken and that if action is desired the Navy should accordingly advise the Bureau and furnish pertinent background information regarding Singer. The Navy continues to send memorandums regarding the captioned individual, but there is nothing indicating that attention has been given to the Bureau's communication directed to the Navy.

For the information of the Liaison Section the Navy's memorandum concerning the captioned individual carried a referenced file number "Op-321E."

RECOMMENDATION:

It is recommended that the Liaison Section review the instant matter with the Department of the Navy, (1) Is the captioned individual employed under the provisions of Executive Order 9835, (2) If so employed does the Navy desire a full field investigation under Executive Order 9835.

That if a full field investigation is desired by the Navy it is recommended a copy of the captioned individual's Personal History Statement be furnished by the Navy to the Bureau.

Pursuant to your specific request, a full field investigation concerning Singer has been instituted within the territorial limits of the United States.

It is requested that you cause the necessary investigation to be conducted in the places where Singer has resided outside the United States. Please furnish six copies of your investigative report to this Bureau as soon as possible. If disloyal information pertinent to Executive Order 9835 is developed, signed statements should be obtained whenever possible.

Rebulet 4-14-51 requesting a full field investigation concerning subject and directing Baltimore to set forth the "Basis for Investigation."

This office after advising investigation was initiated upon the specific request of ONI, will use as the basis the material pertaining to Dr. MANUEL SANDOVAL VALLARTO, appearing on Page 2, Section (e), and Section (1) of enclosure forwarded to this division by the Bureau.

The attention of the Washington Field Division is directed to the statement of Page 1(b) of the enclosure pertaining to Dr. H. E. TATEL, who, according to ONI, was "reportedly requested to leave the laboratory because of his Communistic activities."

The Baltimore Office is origin in a case entitled "Dr. HOWARD EDWIN TATEL, INTERNAL SECURITY - R." This file does not disclose that TATEL was ever a member of the Communist Party, nor does it indicate membership in any organization within the purview of Executive Order 9835. The file disclosed TATEL was employed at Johns Hopkins University, Applied Physics Laboratory, Silver Spring, Maryland, until September 1, 1947, when he left his employ to work for the Department of Terrestrial Magnetism, Carnegie Institute, Washington, D.C. A review of this file does not indicate that TATEL was requested to leave his employment at the Applied Physics Laboratory because of Communistic activity, but because of a poor personality and inability to work with other government agencies.

HARRY L. CROW, JR., Security Officer, Applied Physics Laboratory, Silver Spring, advised in July, 1947 that TATEL was very liberal and outspoken and had a great contempt for rules and administration as they affected him. CROW stated that he had heard from other employees of the Laboratory that TATEL had extolled the advantages of the Russian way of life as compared to ours; that he was constantly upholding STALIN'S activity. CROW did not identify these other employees.

It is requested that the Washington Field Division contact ONI to ascertain their basis for the statement that Dr. H. P. TATEL was "reportedly requested to leave the Laboratory because of his Communistic activities."

It is requested that the Washington Field Division contact HARRY L. CROW, JR., at the Applied Physics Laboratory to determine the actual reason for TATEL'S leaving the Applied Physics Laboratory. CROW and those employees who advised TATEL extolled the advantages of the Russian way of life, etc., should be interviewed and this information furnished to Baltimore so that TATEL can be properly documented by this office.

This division will not report anything concerning the loss of the classified documents by SINGER at New Mexico, that being left to the discretion of El Paso, the office of origin of that investigation.

Other divisions will report activities and contacts of subject when the activities and the activity of the contact is centered within that division.

RESULTS OF INVESTIGATION

EDUCATION

Miss HOUSTON SCOTT, Secretary to the Dean of the Graduate College of Princeton University, Princeton, New Jersey, displayed records reflecting that SIEGFRIED FRED SINGER was born September 27, 1924 at Vienna, Austria. He received his B.E.E. degree at Ohio State University on March 19, 1943. On March 31, 1943, he enrolled in the Graduate College of Princeton University and studied physics at Princeton University from March, 1943 until June 24, 1944, when he received his A.M. degree. He acted as a full-time instructor in physics from May 17, 1944 until August 19, 1944 when he entered the United States Navy.

In August, 1946, he became associated with the Applied Physics Laboratory of Johns Hopkins University located in Silver Spring, Maryland and reenrolled at Princeton University on October 24, 1946. He worked on the thesis for his doctor's degree while he resided at Silver Spring, Maryland, and was granted his Ph.D. degree by Princeton University on October 28, 1948. His work on this degree required him to come to Princeton, New Jersey only about once each month for a short consultation.

The only available address on the Princeton University records for SINGER was 44 Washington Road, Princeton, New Jersey. Miss SCOTT stated that Witherspoon Hall in which SINGER listed his residence in 1943 and 1944 is a dormitory on the Princeton University campus whose other residents during those years have long since departed. Miss SCOTT reported that none of the professors under whom SINGER studied are presently available at Princeton, New Jersey.

NEIGHBORHOOD

The address 44 Washington Road, Princeton, New Jersey, which is listed as SINGER'S residence in 1943 and 1944 on the Princeton University records, was determined to be the Terrace Club.

NK 121-3078

GEORGE JACKSON, Steward of the Terrace Club, 44 Washington Road, Princeton, New Jersey, stated that during the summer of 1943 the club accommodated some of the summer students at Princeton University but that they were required to move in the fall of 1943 when the regular members of the club returned. He stated that SINGER may have been one of this group but that he had no recollection of SINGER in any regard.

IDENTIFICATION AND CREDIT

The records of Chief of Police EDWARD MAHAN, Princeton, New Jersey Police Department and the Credit Bureau of Greater Mercer County, 551 Atlantic Avenue, Trenton, New Jersey, which covers Princeton, New Jersey, contained no information concerning SINGER.

Reference is made to Bureau letter to Washington Field dated 4/14/51 and Baltimore letter to Bureau dated 4/24/51.

Investigation in the above case by the Albuquerque Office is predicated on the fact that on December 3, 1948, SIEGFRIED FRED SINGER, and D. W. HAMLIN, scientists with the Applied Physics Laboratory, John Hopkins University, Silver Springs, Maryland, came to Las Cruces, New Mexico for the purpose of making observations of rocket flights at the White Sands Proving Ground.

On the evening of December 3, 1948, while having dinner at a local hotel, the car in which Appointee and D. W. HAMLIN traveled from El Paso, Texas to Las Cruces, New Mexico, was parked outside the hotel. While so parked, the automobile was broken into and a Sixteen MM Kodak Magazine Loading Motion Picture Camera, some personal clothing of Appointee's and HAMLIN's and certain highly classified documents pertaining to the technical aspects of the rocket flights were taken.

The details of the above theft were made known immediately to the officials at White Sands Proving Ground, officials of John Hopkins Applied Physics Laboratory at Silver Springs, Maryland, and to local law enforcement officers.

Re: SIEGFRIED FRED SINGER

May 11, 1951

The Baltimore office advised by teletype dated December 7, 1948, that HARRY CROW, Security Officer, John Hopkins Physics Laboratory had suggested that it might be worthwhile to "check thoroughly S. F. SINGER, as he was an Austrian-Jewish refugee who was liberal minded."

Considerable investigation was conducted to identify and locate the party or parties responsible for the above theft, as reflected in reports of SA WILLIAM H. DAMON, dated May 31, 1949; August 31, 1949; October 27, 1949; and April 5, 1950; all made at El Paso, Texas, in the case entitled, "UNKNOWN SUBJECTS: Theft of Classified Material and 16 MM Eastman Motion Picture Camera, Serial No. 73469, at Las Cruces, New Mexico, THEFT OF GOVERNMENT PROPERTY."

The facts of the above case were presented to the Criminal Division of the Department which division advised, as set out in Bureau letter to El Paso dated September 29, 1949, that "SINGER may have been negligent in maintaining proper security of classified material. His failure to maintain such security is not such gross negligence as would justify a criminal proceeding."

The Bureau indicated by letter to El Paso dated July 15, 1949 that investigation in this case did not include any evidence of espionage. The Theft of Government Property Investigation was concluded without identifying subjects.

There is no indication the Appointee was ever in the state of New Mexico with the exception of the few days mentioned above when he proceeded to White Sands Proving Ground to observe rocket firings.

HARRY L. CROW, who originally indicated that Appointee should be checked, is being interviewed in connection with the present loyalty investigation, as indicated in Baltimore letter to Bureau dated April 24, 1951.

Let to Director
From SAC, Albuquerque
Re: SIEGFRIED FRED SINGER
LGE

May 11, 1951

It was ascertained at White Sands Proving Ground, during the Theft of Government Property Investigation, that when a rocket was to be launched at the Proving Ground, a few scientists from the John Hopkins Applied Physics Laboratory at Silver Springs, Maryland, would come to the Proving Ground to observe the firing. It was ascertained further that upon the termination of the firing these scientists returned to Maryland and that any information concerning the rocket flights would have to be obtained there.

Any information concerning Appointee which could be reported by this office would pertain to the Theft of Government Property Investigation and would have no bearing on the loyalty of Appointee.

Since this office can furnish no pertinent information reflecting upon the loyalty of Appointee and since the only indication of disloyalty previously received by this office was furnished by HARRY L. CROW, Jr., who is being interviewed by the Washington Field Office in connection with this loyalty investigation, IACB the results of the Theft of Government Property Investigation conducted by this office are not being reported and no report will be submitted by the Albuquerque Office in this case. HAMLIN, scientists with the Applied Physics Laboratory, Johns Hopkins University, Silver Springs, Maryland, came to Las Cruces, New Mexico for the purpose of making observations of rocket flights at the White Sands Proving Ground.

On the evening of December 3, 1948, while having dinner at a local hotel, the car in which Appointee and D. W. HAMLIN traveled from El Paso, Texas to Las Cruces, New Mexico, was parked outside the hotel. While so parked, the automobile was broken into and a Sixteen MM Kodak Magazine Loading Motion Picture Camera, some personal clothing of Appointee's and HAMLIN's and certain highly classified documents pertaining to the technical aspects of the rocket flights were taken.

The details of the above theft were made known immediately to the officials at White Sands Proving Ground, officials of Johns Hopkins Applied Physics Laboratory at Silver Springs, Maryland, and to local law enforcement officers.

RESULTS OF INVESTIGATION

Mrs. REBECCA ZIMMERMAN, 567 Rhodes Avenue, Akron, Ohio, advised that in about 1940 the parents of appointee had rented rooms in her house and lived there for seven or eight months. Several months after they moved in, their son, the appointee, joined them from England and also stayed in her house for a few months. She said that she had had the highest regard for the SINGERS and for the appointee, who at that time was about sixteen years old. She said that she considered them very high type people and that she knew of no reason to question their loyalty.

Mrs. F. E. HOCKENBERRY, 583 Edgewood Avenue, Akron, Ohio, advised that she had known the SINGERS when they had lived at 412 Monroe Street, which is just around the corner from her own home. (It was established that the SINGERS moved to this address after the Rhodes Avenue address.)

She stated that she had always considered the SINGERS to be very fine people and of the best of character and reputation, and that she would definitely consider them as completely loyal. She stated that appointee's father, JOSEPH SINGER, had worked as a watch repairman for a local jewelry store while he was in Akron.

Mrs. RACHEL ROSENTHAL, 204 Raymond Street, Akron, Ohio, advised that Mr. and Mrs. JOSEPH SINGER had rented rooms in her home for a little over a year several years ago. (It was established that the SINGERS lived at this address following the Monroe Street address). She stated that she had not seen much of the appointee as he had been away at school most of the time his parents lived there, but he did come home on visits rather often. She stated

sne believed the SINGERS to be people of good character and habits, and she knows of nothing which could reflect on their loyalty.

There is no record of appointee or his parents in the files of the Akron Credit Bureau, as checked by Mrs. GERTRUDE KAHN; or in the files of the Identification Bureau of the Akron Police Department, as checked by Mrs. AGNES PORTZ.

Appointee is not known to confidential informants T-1 and T-2, both of whom are reliable informants who associate with members of the Communist Party in Summit County.

RESULTS OF INVESTIGATION

Professor E. E. KIMBERLY, College of Electrical Engineering, Ohio State University, Columbus, Ohio, advised in May, 1951, that he remembers appointee very well. He advised that appointee was a political refugee, having fled from the Hitler purge. Appointee came to this country and entered the College of Electrical Engineering, Ohio State University, at the age of sixteen. KIMBERLY further stated that while appointee attended the University he was very close to him, and appointee discussed his personal problems with KIMBERLY on numerous occasions. KIMBERLY informed that at no time had appointee made any statements that would cause him to suspect his loyalty to this country.

Rabbi HARRY KAPLAN, Director, B'nai B'rith Hillel Foundation, 46 East 16th Avenue, Columbus, Ohio, informed that he knew appointee rather well while appointee was in attendance at Ohio State University. Rabbi KAPLAN stated that at no time had appointee made any remarks that would place any suspicion upon his loyalty to this country.

The records of the Ohio Bureau of Credits Corporation, 83 South Fourth Street, Columbus, Ohio, fail to reflect any information bearing upon appointee's loyalty.

The records of the Columbus, Ohio Police Department were checked concerning appointee with negative results.

Confidential Informants Cincinnati T-1, Cincinnati T-2, Cincinnati T-3, and Cincinnati T-4, all of known reliability, none of whom will furnish a signed statement or appear before a Loyalty Hearing Board, advised that they had never known appointee to have been a member of the Communist Party, nor had they ever heard of appointee attending any Communist or Communist front meetings or gatherings in the Columbus area.

II. BASIS FOR INVESTIGATION

This investigation was initiated upon the request of Washington Confidential Informant T-3, another Government Agency, which conducts personnel and intelligence investigations.

T-3 advised that in 1949 Dr. MANUEL SANDOVAL VALLARTA was a visitor of the appointee at the Applied Physics Laboratory, Johns Hopkins University, Silver Spring, Maryland. T-3 described Dr. VALLARTA as a former chairman of the United Nations Atomic Energy Commission, and a noted Mexican scientist who was director of the Department of Exact Sciences of the Mexican-Russo Cultural Exchange Institute in 1944. T-3 advised that Dr. VALLARTA in June, 1945, spent three weeks in Russia in attendance at the Scientific Congress of the Moscow Academy of Science, and his expenses were, according to T-3, allegedly paid by the Soviet Embassy in Mexico. T-3 continued by advising Dr. VALLARTA was under consideration for the presidency of the Communist-sponsored Congress for Peace, held in Mexico City in September, 1949.

BA 121-2077

III. RESULTS OF INVESTIGATION

M. PORTER SUTTON, Administrative Assistant, Institute for Cooperative Research, Johns Hopkins University, 1315 St. Paul Street, Baltimore, Maryland, advised that he was employed as an Administrative Assistant in the Personnel Department, Applied Physics Laboratory, Johns Hopkins University, Silver Spring, Maryland, from 1946 to February, 1950.

Mr. SUTTON advised that he was acquainted with the appointee, who was employed in the Applied Physics Laboratory, Johns Hopkins University, Silver Spring, Maryland. Mr. SUTTON stated that he has never had any reason to question the loyalty of the appointee.

No credit record could be located for Mr. SINGER at the Credit Bureau of Baltimore, Inc.

No criminal record was located for Mr. SINGER at the Identification Division of the Baltimore Police Department when checked on April 21, 1951.

ADMINISTRATIVE PAGE

ReBulet 4/14/51 with enclosure from ONI reflecting information concerning appointee's association with Dr. H. E. TATEL. ONI states TATEL was reportedly requested to leave his position at the Applied Physics Laboratory because of alleged Communist activities. Inasmuch as the Baltimore Office intended to include this information in the basis for investigation, a lead was set out in Baltimore letter to the Bureau, 4/24/51, for WFO to interview HARRY L. CROW, JR., Security Officer, Applied Physics Laboratory, to ascertain details of TATEL's separation from the Laboratory. WFO was requested to furnish Baltimore sufficient information to document TATEL, because such information is not available in Baltimore files.

By teletype 5/21/51, WFO advised that CROW stated that appointee left his employment at the Laboratory on his own initiative to return to the Carnegie Institute. WFO further advised that ONI's information regarding TATEL came from an unidentified confidential informant.

In view of this, the information concerning appointee's association with TATEL is not being included in the basis. It is assumed that all pertinent information concerning same will be reported by WFO under Results of Investigation based on the investigation conducted by WFO at Silver Spring, Maryland.

One copy of this report is being furnished to the WFO for information only, because of the correspondence concerning Dr. HOWARD EDWIN TATEL.

CROW, JR., Security Officer, Applied Physics Laboratory, to ascertain details of TATEL's separation from the Laboratory. WFO was requested to furnish Baltimore sufficient information to document TATEL, because such information is not available in Baltimore files.

By teletype 5/21/51, WFO advised that CROW stated that appointee left his employment at the Laboratory on his own initiative to return to the Carnegie Institute. WFO further advised that ONI's information regarding TATEL came from an unidentified confidential informant.

In view of this, the information concerning appointee's association with TATEL is not being included in the basis. It is assumed that all pertinent information concerning same will be reported by WFO under Results of Investigation based on the investigation conducted by WFO at Silver Spring, Maryland.

One copy of this report is being furnished to the WFO for information, only, because of the correspondence concerning Dr. HOWARD EDWIN TATEL.

III. RESULTS OF INVESTIGATION

All Confidential Informants mentioned in this report are of known reliability unless otherwise stated.

The records of Confidential Informant Boston T-1, a Government agency engaged in intelligence investigations, revealed while SIEGFRIED FRED SINGER was employed at the Applied Physics Laboratory, Johns Hopkins University, during 1949, it was apparent he was becoming increasingly popular with unclassified visitors to the Laboratory. Among his visitors was Dr. MANUEL SANDOVAL VALLARTO, a Mexican citizen and co-worker of NORMAN WIENER of Massachusetts Institute of Technology, Cambridge, Massachusetts.

BACKGROUND

The records of Massachusetts Institute of Technology, Cambridge, Massachusetts, indicate Professor NORBERT A. WIENER is Professor of Mathematics and resides at 53 Cedar Road, Belmont, Massachusetts.

"Who's Who in America," 1946-1947, contains the following information concerning WIENER. He was born in Columbia, Missouri, November 26, 1894, the son of LEO and BERTHA (KRAHN) WIENER. He attended Ayer, Massachusetts, High School in 1906; A.B., Tufts College, 1909; Harvard University, 1909, 1910, 1911-1913; Cornell, 1910, 1911, A.M.; Harvard University, 1912, Ph.D.; Cambridge, England, 1913-1915; Gottingen, 1914; Columbia, 1915; Married MARGARET ENGEMANN March 26, 1926; University of Maine, 1916-1917; staff writer, Encyclopedia Americana, Albany, New York, 1917-1918; Boston Herald, 1919; instructor of mathematics, Massachusetts Institute of Technology, 1919-1924; Assistant Professor, Massachusetts Institute of Technology, 1924-1928; Associate Professor, Massachusetts Institute of Technology, 1928-1932; Professor since 1932; Visiting Professor, Tsing Hua University, Peiping, China, 1935-1936; lectured Cambridge, England, 1931-1932; Bowdoin Prize, Harvard University, 1914;

Bocher American Mathematics Society, 1923; Guggenheim Fellow, Gottingen and Copenhagen, 1926; civilian computer, Aberdeen Proving Ground, Maryland, 1918-1919; member, American Math Society; National Academy of Sciences; London Math Society Club; Appalachian Club; author, the Fourier Integral and certain of its applications.

RE: NATIONAL FEDERATION FOR CONSTITUTIONAL LIBERTIES

Confidential Informant Boston T-4 stated the name of Professor WIENER of Massachusetts Institute of Technology appeared on a list of the National Federation for Constitutional Liberties in 1941.

RE: AMERICAN ASSOCIATION OF SCIENTIFIC WORKERS, BOSTON - CAMBRIDGE BRANCH

Confidential Informant Boston T-5 stated Professor WIENER was an inactive member of the Boston - Cambridge Branch of the American Association of Scientific Workers.

RE: JOINT ANTI-FASCIST REFUGEE COMMITTEE

Confidential Informant Boston T-4 stated Professor WIENER of Massachusetts Institute of Technology signed a letter dated April 1, 1943, sent by the Joint Anti-Fascist Refugee Committee directed to the President of the United States to release and rehabilitate the thirty thousand Spanish Republicans, International Brigaders, and other Anti-Fascists in African concentration camps.

Confidential Informant Boston T-7 stated that JACQUELINE STEINER, an official of the Boston office of the Joint Anti-Fascist Committee, is quoted as stating that NORBERT WIENER was scheduled as a speaker at the New York Madame CURIE dinner and was also at the head table at the Boston dinner. STEINER stated she was worried about WIENER because "he is known to be nuts."

Informant also reported that HANNAH SAXON of the New York office of the Joint Anti-Fascist Committee during late March 1948 inquired of JACQUELINE STEINER concerning a story regarding NORBERT WIENER. The purpose was to use this story in introducing WIENER at the New York dinner to Madame CURIE. SAXON stated she heard a report that WIENER had been asked to figure some calculations on a projectile or similar project by the Navy Department and that he refused to do same on the basis that they would be for the production of war weapons, and that he informed the Navy officials that he was working on only things for peace.

RE: MADAME IRENE JOLIOT-CURIE

Confidential Informant Boston T-7 reported the appearance of Madame CURIE at Boston, Massachusetts, in March, 1948, which appearance was sponsored by the Spanish Refugee Appeal of the Joint Anti-Fascist Committee. Informant related that NORBERT WIENER was listed as a speaker at the dinner in honor of Madame IRENE JOLIOT-CURIE which took place in New York City. Informant also stated WIENER was also designated as a guest at the head table at the Boston dinner.

Confidential Informant Boston T-8 furnished a copy of the invitation to the dinner in honor of Madame CURIE which took place on March 29, 1948, Hotel Buckminster, Boston, Massachusetts. The invitation listed the name NORBERT WIENER as a patron.

Confidential Informant Boston T-5 reported that following the Boston dinner in honor of Madame CURIE, NORBERT WIENER was one of the individuals who discussed the possibility of a luncheon in her honor on March 30, 1948, to be sponsored by the American Association of Scientific Workers. Informant stated Madame CURIE was scheduled to be shown around Massachusetts Institute of Technology by NORBERT WIENER and WIENER was to be responsible for placing her on the 2:45 P.M. plane leaving the airport at East Boston, Massachusetts. Informant also related during this conference that WIENER discussed with Madame CURIE certain statistical work which he said he desired to discuss with her in detail, before she left the United States. WIENER stated to Madame CURIE that he had recently come from New York where he attended a convention of radio electronic engineers and he felt the data brought out in the convention would be of interest to her.

RE: COMMUNIST PARTY

The "Daily Worker," an East Coast Communist newspaper, on November 22, 1948, carried an article entitled "Civic Leaders in New England Rap Frame-Up of '12.'" This article indicated that twenty top New England educators, clergymen, and leaders in other professional fields had called on United States Attorney General TOM CLARK to abandon prosecution of the twelve Communist leaders. The article further indicated that a letter had been directed to the Attorney General pointing out the indictment against the Communists was "based solely on the grounds that these men in April, 1945 organized the present Communist Party," and in the opinion of the signers of the letter the issue was one to be settled by the ballot box and not in the courtroom. Mentioned as one of the signers of the letter was Professor WIENER of Massachusetts Institute of Technology.

Confidential Informant Boston T-11, who has been familiar with some phases of Communist activity in Cambridge, Massachusetts, which occasionally brought him in contact with members of the professional branch of the Communist Party there, stated that at no time had he ever heard the name of NORBERT WIENER discussed as being a member of the Communist Party or sympathetic to the Communist cause. ✓

The "Boston Globe," local newspaper, published at Boston, on July 1, 1949, carried a news item with respect to opposition to House Bill 2632, pending in the Massachusetts General Court. This bill was introduced by the American Legion of Massachusetts in substitution of House Bill 1971. It provided that employees of the Commonwealth of Massachusetts and its political subdivisions would be required to take an oath of loyalty to the government of the United States and the state, and further that any such employees who are members of the Communist Party or who are associated with groups which advocate the overthrow of the government by force or violence be declined employment. The article quoted Professor NORBERT WIENER of Massachusetts Institute as declaring his opposition to acts "depriving people of jobs not so much by legal processes that they formally suggest but by blackmail."

RE: ISRAEL HALPERIN

Confidential Informant Boston T-3 reported on March 16, 1947, ISRAEL HALPERIN arrived in Cambridge, Massachusetts, where he stayed at the residence of Professor WENDELL P. FURRY, his brother-in-law. At that time HALPERIN expressed his desire to meet and talk with Professor WIENER.

Confidential Informant Boston T-2 reported on March 24, 1947, Mrs. NORBERT WIENER apologized to Mrs. WENDELL P. FURRY for not being able to attend the party for ISRAEL HALPERIN.

RE: DR. MANUEL SANDOVAL VALLARTO.

Confidential Informant Boston T-2 stated in January, 1947, Dr. VALLARTO of South America made an appointment to meet NORBERT WIENER at Massachusetts Institute of Technology, Cambridge, Massachusetts, on January 10, 1947.

RE: J. B. HALDANE

Confidential Informant Boston T-6 stated during December, 1946, a British scientist called "HALDANE" was a guest of NORBERT WIENER, and "HALDANE" was scheduled to speak at the Samuel Adams School at Boston, on December 31, 1946, on the topic "The Relationship of Marxism and Science." The Informant also stated "HALDANE" was scheduled to speak before the New Masses Association in New York City on December 31, 1946.

Confidential Informant Boston T-10 stated NORBERT WIENER arrived in England from Calais on January 14, 1951, and left for Boulogne on February 3, 1951. On his arrival he gave his address as in care of Professor HALDANE, University College, London, England.

RE: ATTITUDE TOWARDS CONFIDENTIAL GOVERNMENT RESEARCH

The "Boston Traveler," local newspaper published at Boston, Massachusetts, on January 8, 1947, carried an article entitled "Massachusetts Institute of Technology Scientist Rebels at War Research Talk." The article pointed out that WIENER cancelled a scheduled address before a symposium on calculating machinery sponsored on that date by the Navy Department and Harvard University after disclosing in the "Atlantic Monthly" his intention to withhold any future work which may do damage in the hands of irresponsible militarists.

The "Boston Chronicle," local negro newspaper published at Boston, Massachusetts, on January 18, 1947 carried an article entitled "Where is Science Heading?" This editorial features the protest made by Professor WIENER concerning research for the armed services.

The "Bulletin of Atomic Scientists" for August, 1947, Volume 3, Number 8, page 221, concerns an article of LOUIS RIDENOUR regarding "Military Support of American Science, A Danger?" According to the magazine RIDENOUR takes the attitude that military support of American science need be no danger to American science. In reply to this article, ALBERT EINSTEIN and Dr. NORBERT WIENER made the following points in answer. The statements attributed to Dr. NORBERT WIENER are as follows:

"1. The Armed Services are not fit almoners for education and science - their chief purpose is war.

"2. Compartmentalization in science is fatal to the moral responsibility of science.

"3. The atomic bomb is a bad weapon - technically, strategically and morally.

"4. To give the atomic bomb to those who profess to be able to decide upon its use within two weeks after its first trial is like giving a razor to a five-year-old.

Confidential Informant Boston T-9 reported information has been received that during the course of a 1948 social function at Worcester, Massachusetts, NORBERT WIENER made allegations reportedly indicating a disloyal attitude toward the United States.

Allegedly, WIENER'S arguments were based on the following points:

A. Vilification of all scientific personnel who have prostituted themselves in efforts calculated to increase the military potency of the nation, with particular emphasis on the abnegation of Dr. VANNEVAR BUSH.

B. Vociferous expression of distrust of the armed services, with particular reference (unexplained) to the Naval Service.

a. Declaration that inner political pressure is being brought by the military to fill key Governmental positions with military personnel, resulting in definite militaristic and fascist national tendencies.

b. The shame connected with the atomic bomb, which he alleges was developed and used at the insistence of the military, thereby prostituting science and desecrating humanity.

C. Statements alleging that a militaristic and fascist policy is being propagated by the Administration. As an example he cited the unfounded allegation that under the Paperclip program alien scientists who were Nazis were cleared for entry with greater facility and in larger numbers than those who were not Nazis.

D. Contention that the State Department and United States international policy is based on flourishing the atomic bomb and that in so doing, together with concomitant belligerency, we have bungled relationship with Russia and the world to be a point that potential enemies are now defensively belligerent so that the United States is forcing war on the world.

E. The same source reported that WIENER had told him he would commit suicide the first day of the next war, as he realized that "his attitude would not be tolerated."

F. Information of May 3, 1948, indicates that WIENER is not connected with any classified work at the Massachusetts Institute of Technology. Reportedly, he "flatly refused" his cooperation when the Institute approached him on an unspecified date for assistance in connection with the guided missile program.

G. According to an article in the "New York Times" of January 9, 1947, which described him as "one of the world's leading mathematicians," WIENER refused to address a symposium at the Harvard University Computation Laboratory on January 8, claiming that the devices under discussion were "for war purposes." In a letter published in the January, 1947, issue of the magazine "Atlantic Monthly," WIENER is reported to have stated: "I do not expect to publish any future work of mine which may do damage in the hands of irresponsible militarists." He is further quoted as saying in the same letter: "The practical use of guided missiles can only be to kill foreign civilians indiscriminately, and it furnishes no protection whatever to civilians in this country."

It should be noted Madame IRENE JOLIOT-CURIE is the wife of FREDERICK JOLIOT-CURIE, publicly admitted member of the French Communist Party, who was removed in his position in the French Atomic Energy Commission on account of his Communist activities.

"New Masses" is cited as a Communist periodical by Attorney General FRANCIS BIDDLE, the Congressional Record, September 24, 1942, Page 7688.

The National Federation for Constitutional Liberties, Joint Anti-Fascist Refugee Committee, Communist Party and the Samuel Adams School, Boston, Massachusetts, are organizations declared by the Attorney General to be within the purview of Executive Order Number 9835. The American Association of Scientific Workers is cited as a Communist Front by the California Committee on UnAmerican Activities, report 1948, Page 318.

SYNOPSIS OF FACTS:

Dr. SINGER presently employed as Physicist in the London office of the ONR in the High Altitude Cosmic Ray Research. He was appointed effective 10/2/50 in an excepted position. Formerly employed from 9/12/46 to 10/13/50 at Johns Hopkins University Laboratory, Silver Spring, Maryland. No disloyal information in file. He entered US at NYC on 5/28/40, and was naturalized 1/17/45 at Chicago. One informant declares Singer to have been close to Dr. HOWARD TATEL, and to have received visits at the Applied Physics Laboratory from Dr. MANUEL VALLARTA, and Dr. NORBERT WIENER. Other former associates state SINGER only associated with TATEL during working hours at the Applied Physics Laboratory, inasmuch as TATEL was his Supervisor. They also declared TATEL to be loyal, but very frank and outspoken, and prone to argue both sides. No disloyal activities ascribed to SINGER, and the informants' only doubt is to the afore described visits of such important Scientists. ONI utilized; OSC, not pertinent. No record HCUA; Confidential Informant [redacted], MPD, SIS; PD, Montgomery County; Credit Bureau, Montgomery County; and Washington, Credit Bureau. Neighborhoods negative regarding loyalty.

SIEGFRIED FRED SINGER
aka Fred Singer
Physicist - Appointee
Office of Naval Research
Department of the Navy
London, England

Washington, D. C.
June 13, 1951

I. PERSONAL HISTORY

The following personal history concerning Doctor SINGER was obtained from his personnel file at the Applied Physics Laboratory, Johns Hopkins University, 8621 Georgia Avenue, Silver Spring, Maryland, where he was employed from September 12, 1946 to October 13, 1950 as a Physicist at the Laboratory.

Doctor SINGER was born in Vienna, Austria, September 27, 1924; entered the United States in 1940, and was in the United States Navy from August 1940 to July 1946. From September 1940 to March 1943 he attended the Ohio State University, Columbus, Ohio, and from March 1943 to August 1944 he attended Princeton University at Princeton, New Jersey. From August 1944 to July 1946 SINGER was in the United States Navy as above described.

SINGER's Loyalty Data Form reflects that he has resided at the following addresses:

567 Rhodes Avenue, Akron, Ohio
1944 Luka Avenue, Columbus, Ohio
Witherspoon Hall, Princeton, New Jersey
430 Pershing Drive, Silver Spring, Maryland
8720 Cameron Street, Silver Spring, Maryland
1007 Merrimack Drive, Silver Spring, Maryland

II. RESULTS OF INVESTIGATION

At the Office of the Naval Research, Main Navy Building, Washington, D. C., it was ascertained that the appointee's personnel file was located in the London office of that organization. However, a reference card indicated that appointee entered on duty October 2, 1950 under an excepted appointment as a Physicist in the study of high altitude cosmic rays. No disloyal data was noted on this card.

Washington T-1, an individual who has previously furnished reliable information to the Washington Field Office,

advised that he was acquainted with the appointee at the Johns Hopkins University, Applied Physics Laboratory during the appointee's employment, and that he was concerned at the way the appointee would violate security regulations, and his lack of respect for them generally. He said that none of these violations were serious, but that whenever the appointee was reproached concerning them he seemed to be resentful.

T-1 stated that he was rather suspicious of the actions of one Doctor HOWARD TATEL who was the appointee's immediate supervisor at the Laboratory. He stated that they worked in the same room at the Laboratory and went on several field trips concerning the development of the use of the German V-Rockets. He stated that he suspected Doctor TATEL of being pro-Communist from indirect reports he had heard concerning TATEL. T-1 said that he could never get to the sources of these allegations, nor could he recall specific statements he had heard concerning TATEL.

T-1 stated that outside of the appointee's association with Doctor TATEL and his disregard for security regulations he had no other reason for doubt of appointee's loyalty. T-1 requested that his name be kept confidential and refused to give a signed statement, and to appear before a hearing board.

Washington T-2, described by Washington T-3, another Government agency also conducting personnel and intelligence investigations, to be a very reliable individual who has previously furnished them with accurate and valuable information, advised that in 1945 or 1946 he met the appointee in the Applied Physics Laboratory when the appointee was a Technician. He said that the latter had been an enlisted man in the Navy, and had done some work in the Physics section at the Navy Gun Factory during the War. T-2 said that the appointee did not heed instructions, and would take short-cuts whenever possible around the regulations. T-2 said that the appointee went on expeditions to the North Pole twice, and has done work in the section which was handling guided missiles.

T-2 said that he became suspicious of the appointee when he began receiving visitors. On one occasion, the date

which he could not remember, T-2 said Doctor SANDOVAL VALLARTA, a Mexican citizen, and a co-worker of NORBERT WIENER of the Massachusetts Institute of Technology, was one of these visitors. Doctor VALLARTA was also former Chairman of the United Nations Atomic Energy Commission, and a noted Mexican Scientist.

As to Doctor WIENER, T-2 stated that he was a friend of one HALDANE (he believed the initials to be C.E.S.) of the London Daily Worker, a British Communist newspaper, and that Doctor WIENER, in his book entitled "Cybernetics," spoke of his association with Doctor VALLARTA.

Further information concerning Doctor NORBERT WIENER and Doctor SANDOVAL VALLARTA are set out in this investigation in the report of Special Agent CHARLES E. PELLETIER dated May 28, 1951 at Boston, Massachusetts.

The following article appeared in the Book Review Section of the Sunday June 17, 1951 issue of the Washington Post. This article was captioned "The Road Back" and was a review of a book by CHARLOTTE HALDANE, entitled "Truth Will Out". This book was published by the Vanguard Press, no address was given. The review reflects that Mrs. HALDANE is a British journalist who harkened to the voice of the Soviet siren in the thirties, married Professor J. B. S. HALDANE, a British scientist and party stalwart, who later became a Comintern agent in Paris. During World War II, Mrs. CHARLOTTE HALDANE became disillusioned with Communism and broke with the party. The review further relates that Mrs. HALDANE has made poignant comments on the subject of the Lysenko theory of genetics, which the Soviet government officially adopted in the face of the Western world's derision. Her former husband, himself a geneticist, was forced to choose between speaking his mind as a scientist or denying his reason as a leftist. Mrs. HALDANE is quoted as saying "There is something mortifying, even for the onlooker, in watching the wriggings and squirmings of the orthodox Stalinist believers, impaled on the devil's horns of this dilemma."

The above article that appeared in the Washington Post of June 17, 1951, has been made an exhibit of this report. (Exhibit A)

T-2 said that this seemed so strange that a young, comparatively unknown Scientist would receive visits from known

Scientists of such great stature. He further stated that not a single Scientist in the Laboratory, including Doctor VAN ALLEN, the head, rated such imminent visitors in the field of Scientists. T-2 said furthermore it was strange to him that the appointee did not stick to the field to which he was allotted, which was that of studying cosmic rays and terrestrial magnetism. But on the other hand every possible chance he had he would be delving into the field of guided missiles.

T-2 stated that he did not want to be unfair and that other than the strange surroundings concerning the appointee, he had nothing with which to accuse him of being disloyal and had never heard him make any un-American statements, and did not know of any 'so called subversive organizations to which he might have belonged. T-2 declined to give a signed statement or to appear before a Loyalty Hearing Board.

Mr. E. J. MARSCH, Security Officer for the Applied Physics Laboratory, advised that the appointee received his Ph.D. in June 1948 from Princeton University, and at that time was promoted from technician to Physicist, and in October 1950 he was given leave of absence for eighteen months to go with the Office of Naval Research.

Mr. MARSCH advised that there was no disloyal data in the appointee's personnel file, and that as far as he was concerned, there was no evidence of any disloyal tendencies on his part while he was employed at the Laboratory. He said that he knew SINGER for approximately two and one-half years,

not socially, but solely at the office. He said he found him to be cooperative; was regarded as a brilliant Scientist; and was intent on his work, and his association with other people at the Laboratory seemed to be only in connection with his work.

Mr. ELBERT L. LANE, Employment Manager at the Applied Physics Laboratory, advised that he knew the appointee reasonably well, but only through his association at the office. He stated he regarded the appointee as a good Physicist; sincere and honest; cooperative, and although foreign born, he regarded him as a thorough American and he had no reason to doubt his loyalty.

Mr. LANE stated that in regard to Doctor TATEL, the latter had come to the Laboratory from the Carnegie Institute of Washington when the Laboratory was beginning its guided missile and cosmic ray studies for the Navy. He said that Doctor TUVE, the head of the Terrestrial Magnetism Division of Carnegie Institute, brought his entire section to the Laboratory to begin its research, and that TATEL was one of TUVE'S top men. He said that while at the Laboratory TATEL made some enemies due to his frankness, and due to his willingness to argue and desire to take both sides of any particular question. He described him as a person who liked to have a good argument, and if an argument was going too slow to suit him he, TATEL, would offer a controversial point in order to stimulate the conversation.

Mr. LANE said he had heard some remark about the fact that Doctor TATEL was asked to leave the Laboratory, but that it was not true, inasmuch as he left on his own accord to return to the Carnegie Institute, and take up his work again with Doctor TUVE. He said, as a matter of fact, the Laboratory tried to keep him, and would have desired his services had he not wished to leave.

Mr. LANE said, in his estimation, Doctor TATEL is equally a good American as he is a good Scientist, and he has no reason whatsoever to doubt his loyalty to the United States. He added that at the present time Doctor TATEL is still listed as a Consultant for the Johns Hopkins University at the Applied Physics Laboratory, and has clearance for top secret material.

As to any association between Doctor TATEL and the appointee, Mr. LANE stated he knew of none, other than the fact that Doctor TATEL was the appointee's Supervisor, and they were engaged in the same type of work. Naturally they would be seen talking and working together in the Laboratory. He said that he knew of no social association between the two.

LORENCE FRASER, Physicist at the Laboratory since 1942, advised that he knew both Doctor TATEL and the appointee, and advised that he associated with them daily, and in his contact with them had never heard either one make any remark which would indicate any disloyalty on the part of either one. Mr. FRASER said he did not know of any association away from the Laboratory between appointee and TATEL, but added that he himself had very little social contact with any of the other members of the staff, and it might have been possible for them to have associated without his knowing about it.

Mr. RUSSELL OSTRANDER, Physicist, Applied Physics Laboratory, stated that he likewise had no information concerning any disloyalty on the part of the appointee; and that he also regarded Doctor TATEL as being a loyal American, and knew of no association between them away from the Laboratory.

Doctor FRANK T. McCLURE, one of appointee's former Supervisors at the Laboratory, advised that his association with the appointee started in 1947 when the latter was working under him on a project. He said he had had quite a few discussions with the appointee during which they discussed many controversial issues, but at no time did the appointee indicate any disloyal tendencies. He said that, on the contrary, all of the appointee's remarks seemed to evidence a practical sense of loyalty to the American form of Government.

Doctor McCLURE stated he did not know TATEL too well because the latter left about the time he, McCLURE, arrived, but he said that he has seen Doctor TATEL several times since at scientific dinners and frequently at meetings at the Carnegie Institute. He said he did not think that Doctor TATEL is a Communist, or a Communist sympathizer, but that he is a very strange person, nervous and high-strung, as well as outspoken. He added that TATEL was perfectly willing to use a "good" in an argument to pep it up. Doctor McCLURE said, to his knowledge, the appointee and TATEL had no closer association than any other two people on a technical project. He said he did not know of any association between the two outside of their work.

Amended

During the interview with Washington T-2, it was learned that T-2 had reliable but ~~unavailable~~ information that the wife of Doctor FRANK T. McCLURE, born MARY ~~SOFT~~ ~~1/1/10~~ was a card-carrying Communist in Canada.

Miss NANCY HINKEL, Security Office at the Naval Ordnance Laboratory, White Oak, Maryland, advised that according to Lieutenant A.W. HARTIN, USN, in the Administrative Office, no record of the appointee was available, and that if he had been assigned to the Laboratory while on duty with the Navy no file would be available concerning this tour. She also said that there would be no way of determining in which section he worked, and consequently no way of determining who his associates were at that time.

Mr. THOMAS J. SCOTT, 430 Pershing Drive, Arlington, Virginia, advised that the appointee lived with him as a paying guest for a period of approximately one year from May 1947 to May 1948. He said he had very few visitors who were generally young men, mostly his own age, and who generally used their visiting time to study, or to read, or play records.

Mr. SCOTT said he did not have many conversations with the appointee, but that whenever they did hold any discussions nothing was ever mentioned which would indicate that the appointee was disloyal. On the other hand, he pointed out he considered him as a rather solid naturalized citizen. He said also that he did not remember the name TATEL as being one of the appointee's visitors.

Mr. SCOTT said that the appointee left his home in order to obtain an apartment nearer to his work, and that up until about a year ago the appointee did come by infrequently to visit with him.

Miss MYRA HAY, housekeeper, for Mr. SCOTT at the above named address, supplied substantially the same information as Mr. SCOTT, and added that she was very fond of the appointee whom she thought was a very brilliant young man, and stated that she had absolutely no question as to his loyalty.

Mrs. JAMES W. HIRST, 705 Dale Avenue, Silver Spring, Maryland, (around the corner from 430 Pershing Drive) advised that she remembered the appointee while he was living at Mr. SCOTT'S home, and that she had a very favorable impression of him; she knew him only in a neighborly manner, and he would come out in the back yard in the warm weather and talk with the family, and on several occasions took snapshots of her children. She said she had no reason whatsoever to doubt his

loyalty on the basis of the acquaintanceship she has had with him. She also said that she has never noticed any visitors with the appointee.

It is noted that appointee listed 8720 Cameron Street, Silver Spring, Maryland, as an address from 1948 to 1949. This address is known as the Saint Charles Apartments which is handled by the H.G. SMITHY Real Estate Company. According to Miss USKUS of the above named company, she advised that the appointee had been forced to leave his apartment at the Saint Charles, inasmuch as he had sublet from a Mrs. McALLISTER which was against the rules of the building, and when this was determined he was asked to leave, effective April 11, 1949.

Mrs. WILTON TURNER, Resident Manager of the Saint Charles Apartments, advised that she did not know the appointee until it was called to her attention that he had taken over Mrs. McALLISTER'S apartment at 8720 Cameron Street, the Saint Charles Apartments. She said that Mrs. McALLISTER is now deceased, and there is no other resident in that apartment at the present time who were there at the time of the appointee's residence.

Mrs. TURNER said she had never heard any remarks made concerning the appointee to cause him any trouble outside of being illegally, as far as they were concerned, in the apartment.

Mrs. RAY WIERICH, 8724 Cameron Street, another unit of the Saint Charles Apartments, advised that although she lived in the next apartment building for eight years she did not know the appointee. She also stated that everyone who lived there in early 1948 had since moved.

Mrs. PHYLLIS McKEE, 8720 Cameron Street, Silver Spring, Maryland, stated that she knew the appointee very slightly, inasmuch as she had taken the apartment over from him in April 1948, and he had let her use the telephone which he had in the apartment when she was unable to get one. She said that she saw SINGER once each month for a period of three months when he came around to collect for the telephone bill. She had no information concerning the appointee's loyalty.

✓ Lieutenant Colonel C.B. HAMMERLEY, Jr., 1007 Merrimack Drive, Silver Spring, Maryland, advised that the appointee resided in Apartment 5 on the second floor from early 1946 until the middle of 1950, at which time he left, and he has not seen him since. He said that during the time of the appointee's residence at that address he knew him casually; that they had very few personal contacts; the appointee minded his own business, and lived a quiet, apparently studious life. He said he had no reason to doubt the appointee's loyalty.

Mrs. HAMMERLEY, same address as above, advised that she had seen the appointee from time to time, and gave substantially the same information concerning the appointee as was provided by her husband.

Mrs. HOWARD BATHWILL of 1007 Merrimack Drive, Silver Spring, Maryland, stated that the appointee occupied Apartment 5 on the second floor for the period of something over a year. To her knowledge she stated he lived with another young man by the name of MAXIMILIAN LAVINE, but other than that she knew very little concerning the appointee, and said that she had no reason to doubt his loyalty to the United States.

RUSSELL CORNWELL ROSS, Apartment 9, 1007 Merrimack Drive, Silver Spring, Maryland, stated he did not know the appointee at all, inasmuch as he has lived there only since March 1950 and spent most of his time traveling with the National Association of Manufacturers. Mr. ROSS said that he remembered the name on the mail box, and that was all.

Mrs. GLORIA KNUDSON, Secretary of the Jess Fisher Real Estate Company, which handles the rentals for the above address, advised they did not have a record of the appointee or the dates which he rented the apartment, inasmuch as they had just taken over the management of the building from one SAM HELLER, former owner, 6416 Luzon Avenue, N.W., Washington, D.C. She also stated that Mr. HELLER was in Florida at the present time, and could not be reached.

At the office of the Immigration and Naturalization Service it was determined that SIEGFREID FRED SINGER entered the United States on May 28, 1940 at New York City on the SS SCYTHIA of South Shields under the name SIEGFREID SINGER. He filed petition for naturalization Number 311650 on January 17, 1945 at Chicago, Illinois, while he was in the United States

Navy. He was issued Certificate of Naturalization Number C-6205613 under the name of SIEGREID FRED SINGER on January 17, 1945 in the District Court of Chicago, Illinois. No disloyal information was contained in the file.

A previous investigation conducted by the Federal Bureau of Investigation reflects that in December, 1948 SIEGREID FRED SINGER, while a scientist with the Applied Physics Laboratory, Johns Hopkins University, Silver Spring, Maryland, came to Las Cruces, New Mexico for the purpose of making observations of rocket flights at the White Sands Proving Ground.

On the evening of December 3, 1948, while the appointee was having dinner at a Las Cruces, New Mexico hotel, the car in which the appointee was traveling was parked outside the hotel. While so parked, the automobile was broken into and a sixteen mm Kodak, Magazine Loading Motion Picture Camera, some personal clothing of the appointee and certain highly classified documents pertaining to rocket flights were taken. This property was never recovered.

The facts of above case were presented to the Criminal Division of the Department of Justice. It was never ascertained definitely what documents were lost, therefore, criminal proceedings by the Justice Department under title 18, USC 793 (revised) were denied. The opinion of the Criminal Division was that the appointee may have been negligent in maintaining proper security of classified material, nevertheless, his failure to maintain proper security is not such gross negligence as would justify a criminal proceeding.

The information in the files of Washington T-3, previously described, has been utilized in this case.

The files of Washington T-4, another Government agency which conducts personnel and intelligence investigations, contain no pertinent information concerning the appointee.

The records of the House Committee on Un-American Activities; the Metropolitan Police Department, Washington, D.C., and the Special Investigations Squad; the Montgomery County Police Department; the Montgomery County and Washington, D.C. Crime Bureaus, contain no information concerning the appointee.

The appointee is unknown to Washington T-5, who has previously furnished Washington Field Office with reliable information concerning Communist activities within the Washington area.

The appointee's name was checked against the records of the Identification Division of the Federal Bureau of Investigation and no criminal record was found.

Information concerning Doctor HOWARD EDWIN TATEL is contained in the report of SA PAUL L. DORRIS, dated June 21, 1947, at El Paso, Texas, entitled "HOWARD TATEL; INTERNAL SECURITY - R; REFER 5 - 13."

During the interview Washington T-2 stated that he did not trust McCLURE and regarded him as a "Liberal" in that he himself was always espousing the left of central arguments which went on at the laboratory. T-2 did not put his finger on any particular statement or action, but said he felt that the whole laboratory was involved in some mighty peculiar activities which should be really investigated. It is pointed out that the Washington Field Office has an AEC investigation on McCLURE in the report of SA WILLIAM J. TRACY, entitled "FRANK TRELFORD McCLURE, AEC;" dated August 20, 1948.

It is also pointed out that Doctor McCLURE was interviewed before the Navy informant.

One copy of this report is being designated for the Baltimore Office for the completion of its files concerning Doctor HOWARD TATEL.

As to Doctor WIENER, T-2 stated that he was a friend of one HALDANE (he believed the initials to be C.B.S.) of the London Daily Worker, a British Communist newspaper, and that Doctor WIENER, in his book entitled "Cybernetics," spoke of his association with Doctor VALLARTA.

T-2 said that this seemed so strange that a young, comparatively unknown, Scientist would receive visits from known Scientists of such great stature. He further stated that not a single Scientist in the Laboratory, including Doctor VAN ALLEN, the head, rated such imminent visitors in the field of Scientists. T-2 said furthermore it was strange to him that the appointee did not stick to the field to which he was allotted, which was that of studying cosmic rays and terrestrial magnetism. But on the other hand every possible chance he had he would be delving into the field of guided missiles.

T-2 stated that he did not want to be unfair, and that other than the strange surroundings concerning the appointee, he had nothing with which to accuse him of being disloyal and had never heard him make any un-American statements, and did not know of any so called subversive organizations to which he might have belonged.

T-2 declared he was a signed statement on his part before a Loyalty Hearing Board.

Mr. E.J. Mr. HARSCH advised that there was no disloyal data in the appointee's personnel file, and that as far as he was concerned, there was no evidence of any disloyal tendencies on his part while he was employed at the Laboratory. He said that he knew SINGER for approximately two and one-half years,

The Road Back

TRUTH WILL OUT. By Charlotte Haldane. Vanguard Press. 339 pp. \$3.50.

MRS. HALDANE is a British journalist who hearkened to the voice of the Soviet siren in the thirties, married Prof. J. B. S. Haldane, a British scientist and party stalwart, and later became a Comintern agent in Paris. During World War II, she became disillusioned with communism, broke with the party, absorbed the abuse of the faithful and now lives a free and relatively happy life again.

All this is a familiar story. What distinguishes Mrs. Haldane's from other recent *mea culpa's* is the fact that she is an extremely literate and perceptive writer who is able to explain to the reader what the party is constantly doing undercover. Some of her revelations are downright funny, as when the party first tried to dissuade her from divorcing Professor Haldane. (She did so, anyway.) A French Communist, she tells us, was forced to choose between the party and his wife—and chose his wife.

The author is biting on the subject of the Lysenko theory of genetics, which the Soviet government officially adopted in the face of the Western world's derision. Her former husband, himself a geneticist, was forced to

choose between speaking his mind as a scientist or denying his reason as a leftist. He wriggled. After taking care of him mercilessly, she tersely notes: "There is something mortifying, even for the onlooker, in watching the wriggings and squirmings of orthodox Stalinist believers, impaled on the devil's horns of this dilemma."

There is indeed. In fact, the whole of this courageous book is an account, by one who knows, of the world that separates the Western thinking man from the Eastern man whose thinking is all done for him.

DATE: June 25, 1951

Reference is made to report of Special Agent ROBERT H. SCHNEIDER dated 6/13/51, at Washington, D. C. in the captioned matter.

Attached herewith is a clipping taken from the Book Review Section of the Sunday, 6/17/51 issue of the Washington Post concerning a book review of the book entitled "Truth Will Out," written by CHARLOTTE HALDANE. It is noted that on page 3 of the referenced report, T-2 advised that a Doctor WIENER, who had allegedly contacted Doctor SINGER at the Applied Physics Laboratory in Silver Spring, Maryland, was a friend of one HALDANE, whose initials he believed to be "C. B. S."

In this book review Mrs. HALDANE states she married Professor J. B. S. HALDANE, a British scientist and party stalwart, and later became a Comintern agent in Paris; that she became disillusioned with Communism, broke with the party, absorbed the abuse of the faithful, and now lives a free and relatively happy life again.

This clipping is being forwarded to the Bureau for the completion of its files in this case.

It is suggested that the Bureau consider interviewing Mrs. HALDANE for possible informative purposes. The WFO has no information concerning the present whereabouts of Mrs. HALDANE, but as it appears in the outset of the clipping, the Vanguard Press would probably have her present address.

LOYALTY OF GOVERNMENT EMPLOYEES

There is set forth below a list of loyalty cases which are pending in your office and which are among the most delinquent loyalty investigations being handled by the Bureau:

Arthur Cuming Ringland - State
John Charles Irving - Army
Magdalena Fields Fenwick - Army
Juanita Gentry - Army
Oscar Brotsan - Treasury
Rosalie Kirschenbaum - Executive Office of the President
Ruth Virginia Russell - MLRB
Louise Wrockloff Oldes - Army
Lola Laenia Bueker - Army
Siegfried Fred Singer - Navy
Herbert Tilley - Navy
James Rosamond Lawrence - Navy
Williametta R. Russell Parsons - Navy
Mary Jane Schleifer - ESA)PI(
Harold Leventhal - ESA
Louis Isadore Freed - CSC

As I pointed out in my letter of June 15, 1951, the Bureau has a definite responsibility of completing loyalty investigations in the shortest possible time in order that we can fulfill our obligations under the loyalty program. You personally take appropriate steps to see that there is no delay in the completion of the above list of cases, even though some of these cases may have been recently opened in your office by referral of leads from the Bureau or auxiliary offices.

Your attention is again directed to the fact that numerous other cases are pending in your office which have exceeded the Bureau deadline. I want to reiterate my previous instructions that immediate steps should be taken to have these cases brought to a logical conclusion and to insure that loyalty investigations handled by your office in the future shall be admitted to reach the Bureau on or before the deadline date.

I am sure that you can readily understand the absolute necessity for the expeditious handling of loyalty investigations, both preliminary inquiries and full field investigations.

RESULTS OF INVESTIGATION

DOROTHY SINKEY, Transcript Section, Registrar's Office, Ohio State University, Columbus, Ohio, presented records which reflected that the appointee entered the College of Electrical Engineering April 8, 1941 and graduated in March, 1943, receiving a Bachelor of Electrical Engineering Degree. The record reflected that the appointee was born September 27, 1924 in Vienna, Germany. He graduated from the Hamerling Realgymnasium, Vienna, in 1938 and thereafter for nine months studied at the School of Optometry in Vienna. In March, 1939 he went to England and attended evening classes in the Rutherford Technical College, New Castle-on-Tyne, and worked for a broadcasting company. The appointee came to the United States in May, 1940.

The appointee's home address was listed as 412 Monroe Street, Akron, Ohio, and his father, JOSEPH SINGER, resides there and is employed as a watchmaker. The appointee's file at Ohio State University contains no disloyal information.

Professor F. E. KIMBERLY, College of Electrical Engineering, Ohio State University, Columbus, Ohio, advised that he remembers the appointee very well. He advised that the appointee came to this country and entered the College of Engineering at the age of sixteen. He was a political refugee, having fled from the Hitler purge. Professor KIMBERLY further stated that while the appointee attended that University he was very close to him, and the appointee discussed his personal problems with KIMBERLY on numerous occasions. Professor KIMBERLY advised that at no time had the appointee made any statements that would cause him to doubt his loyalty to this country. Professor KIMBERLY stated that other professors who might have known the appointee are not on the campus this summer.

Rabbi HARRY KAPLAN, Director, B'nai B'rith Hillel Foundation, 46 East Sixteenth Avenue, Columbus, Ohio, advised that he knew the appointee rather well when the appointee was in attendance at Ohio State University. Rabbi KAPLAN stated that at no time had the appointee made any remarks that would place any suspicion upon his loyalty to this country.

Ohio State University records reflect that the appointee resided at 1944 Iuka Avenue, Columbus, Ohio, from 1941 through 1943. This building was a student rooming house which was taken over in 1946 by the Newman Catholic Club. Miss CATHERINE CALLOWAY, Secretary, Newman Club, advised that no record of the former student tenants of that house had been turned over to her. It will be noted that the general area on Iuka Avenue is a student rooming house and fraternity district.

Mr. JACK R. PYWEN, 4408 Reading Lane, Cincinnati, Ohio, advised that he was a fraternity brother of appointee and that he lived in the Alpha Epsilon Pi fraternity house at Columbus, Ohio for one school year about 1942. PYWEN described appointee as a brilliant student and a pleasant, even-tempered individual. He advised that appointee was a refugee from Germany and was bitter about the treatment his family received from the Nazi government. PYWEN stated that he has never known anything unfavorable concerning appointee and that he has always considered him a loyal person.

Records of the Ohio Bureau of Credits, 83 South Fourth Street, Columbus, Ohio, fail to reflect any information bearing on the appointee's loyalty.

Records of the Columbus, Ohio Police Department contain no information concerning the appointee.

Confidential Informants Cincinnati T-1, Cincinnati T-2, Cincinnati T-3 and Cincinnati T-4, all of known reliability, who are familiar with Communist Party activities in the Columbus, Ohio area and none of whom will furnish a signed statement or appear before a Loyalty Hearing Board, advised that they had never known the appointee to have been a member of the Communist Party, nor had they ever heard of the appointee attending any Communist or Communist front meetings or gatherings in the Columbus area.

Detroit, Michigan
August 10, 1951

III. RESULTS OF INVESTIGATION

Professor ERWIN E. DREESE, vacationing at Alanson, Michigan, stated that he recalled SINGER as being a very brilliant student while attending Ohio State University, and that he appeared to be very appreciative of being in this country. Professor DREESE stated, however, that he knows nothing regarding the loyalty or associates of SINGER. He added that SINGER appeared to be a good citizen at the time of his attendance at Ohio State University.

In accordance with procedures established under Executive Order 9835, the Bureau was to be advised by the Civil Service Commission of the final disposition made under Executive Order 9835 of all investigations submitted by the Bureau to the Commission for consideration under that Order. After the close of Executive Order 9835 (May 28, 1953), there was found that there were approximately 2200 cases in which the Bureau had not received advice as to the disposition made of them under Executive Order 9835. Many of these cases were furnished to the Commission within several months or immediately prior to the close of Executive Order 9835. In such cases, there would probably not have been sufficient time to have adjudicated them under Executive Order 9835, but they would have been adjudicated under Executive Order 10450. However, in order that the Bureau's records would be complete, regarding any dispositions made of Bureau cases under Executive Order 9835, checks have been made with the Civil Service Commission regarding the above 2200 cases. (66-6200-121-1646)

As a result of these checks with the Civil Service Commission, the following should be reflected in the Bureau's Statistical Records as the Executive Order 9835 disposition of the captioned matter so that these records will reflect an Executive Order 9835 disposition for all cases:

Remarks:

RECOMMENDATION:

The Statistical Section record the above-noted disposition for the captioned matter under Executive Order 9835.

Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. TOLSON

DATE: November 18, 1957

FROM : G. A. NEASE *GA*SUBJECT: DR. S. FRED SINGER
UNIVERSITY OF MARYLANDSIEGFRIED FRED SINGER

You will recall that Ed Hood, Administrative Assistant to Senator Butler of Maryland called on November 14 to ascertain whether we could furnish the Senator any background information on Singer. It will be noted that we did conduct an investigation of Singer in 1951 at the request of the Navy under the purview of Executive Order 9835 which was generally favorably.

I called Mr. Hood back and told him there was nothing we could furnish him concerning Dr. Singer but suggested that he might wish to check with the Johns Hopkins Physics Laboratory at Silver Spring, Maryland, and with the Navy, both of whom had employed Dr. Singer in the past. Mr. Hood expressed his appreciation.

Ed Hood, Administrative Assistant to Senator Butler of Maryland, called. He stated that the Senator had run into the Director within the past few days and had indicated he wanted to come in and see the Director about a matter this week. He stated that unfortunately the Senator is now in Baltimore and cannot get over, but that the matter in question is as follows:

① The Senator is under considerable pressure to have Dr. Fred Singer of the University of Maryland appointed to a high position in the missile program, particularly, since some people allege that he was in part responsible for the program at the beginning. He reiterated that the pressure on the Senator was terrific but the Senator was wondering if he should go all out, not knowing what Singer's background might be. He wondered if the Director could offer him any guidance.

I told Hood that this matter would be called to the Director's attention and I would be in touch with him. I am having a check made to determine just what Singer's background might be.

Singer Urges Christmas Satellite

By Nate Haseltine
Staff Reporter

A pioneer American satellite scientist yesterday proposed that this country launch a "Christmas star" into space next month, as "a symbol of hope and peace."

Singer

The proposal was advanced by Fred Singer, University of Maryland astrophysicist, who told Rotarians here this country doesn't yet have the rocketry to "impress" its people.

Sending a harmless, uninstrumented sphere into a globe-circling orbit, he said, would help offset the propaganda advantage Russia has gained with its two Sputniks. The "Christmas star," he said,

could be luminous to glow in the night skies. Yesterday, Singer said the

Singer credited the symbolic satellite idea to John McConell, editor of the weekly "Toe Valley News" in Bakersville, N. C., who proposed it in an editorial Oct. 1. The Maryland astrophysicist

is credited with originating many of the features now incorporated into this country's projected earth satellite. He has also been called the father of Project Farside, the Air Force program planned for televising the other side of the moon.

Yesterday, Singer said the "Christmas star" satellite it- self probably could be constructed for about \$2000. Its launching would cost less than a million dollars, he said, suggesting that the public might be willing to finance the whole thing by popular subscription.

DOCTOR SIEGFRIED FRED SINGER
ALSO KNOWN AS S. FRED SINGER

Summary
Dr. Siegfried Fred Singer, educator, physicist, was born in Vienna, Austria, on September 27, 1924. He came to the United States in 1940 and became a naturalized citizen in 1944. Dr. Singer received a bachelor's degree in electrical engineering from Ohio State University in 1943, an AM degree from Princeton University in 1944 and a Ph.D degree in physics from Princeton University in 1949. He was an instructor in the Physics Department, Princeton University, from 1943 to 1944; a physicist at the Applied Physics Laboratory, Johns Hopkins University, Silver Spring, Maryland, from 1946 to 1950; a science liaison officer, Office of Naval Research, American Embassy, London, England, from 1950 to 1953; and became an associate professor of physics at the University of Maryland in 1953. Dr. Singer served with the United States Navy from 1944 to 1946 and became a captain in the United States Air Force Reserve in March, 1950. His field of study included research, origin of cosmic rays, upper atmosphere, meteorites, and the design of artificial satellites. He belongs to professional organizations in connection with his field of science and resides at 2 Ridge Road, Greenbelt, Maryland. According to the November 14, 1957, issue of the "Washington Post and Times Herald," Washington, D. C., Dr. Singer is credited with originating many of the features now incorporated into this country's projected earth satellite and has also been called the father of Project Perside, the Air Force program planned for televising the other side of the moon. ("Who's Who" supplement, September to November, 1956; 121-26805)

During December, 1949, Dr. Singer, accompanied by two other scientists, was traveling by a privately owned vehicle in Las Cruces, New Mexico, area. While they were stopped for dinner and after locking the car, the car was broken into and its contents, including classified documents entrusted to Dr. Singer, were stolen. Subsequent investigation failed to locate the classified material. By letter dated September 15, 1949, the Department of Justice advised that while Singer may have been negligent in not locking proper

During 1951, the Federal Bureau of Investigation conducted a security-type investigation concerning Dr. Singer under the purview of Executive Order 9835 and at the request of another Government agency which conducts personnel and intelligence investigations. The investigation was based on the allegation that Dr. Singer had "relationship with individuals whose loyalty is doubtful and those who have fostered the aims of International Communism." (121-26808-1, Office of Naval Intelligence)

During the investigation a confidential informant, who has furnished reliable information in the past and who was acquainted with Dr. Singer at the Applied Physics Laboratory, Johns Hopkins University, advised that he was concerned at the way Dr. Singer would violate security regulations and his lack of respect for these regulations generally. He added that none of the violations were serious but that whenever Dr. Singer was approached concerning them he seemed to be resentful. The informant added that Dr. Singer also was a close associate of his immediate supervisor at the Laboratory whom the informant suspected of being procommunist based on indirect reports. The informant advised that other than this association with his immediate supervisor and his disregard for security regulations, he had no reason to doubt Dr. Singer's loyalty. Another confidential informant, who has been described by the above-mentioned agency as having furnished reliable information in the past, advised that he became acquainted with Dr. Singer in approximately 1945 or 1946. He described Dr. Singer as a person who did not heed instructions and would take short-cuts whenever possible around the "regulations." The informant added that he became suspicious of Dr. Singer when he began receiving visitors at the Laboratory. He added that it seemed strange that a young and comparatively unknown scientist would receive visits from known scientists of such great stature. The informant stated that he did not want to be unfair and added that other than Dr. Singer's lack of concern for regulations and his many visitors, he had no reason to question Dr. Singer's loyalty to the United States. Other than the above information, the investigation developed favorable information only concerning Dr. Singer. (121-26808-26X)

ARTHUR LESTER TALKINGTON, JR.
SECURITY MATTER - C

A source, who has furnished reliable information in the past, recently advised that an unknown individual, who is believed but not known to be identical with subject Talkington, had recently discussed with subject Robeson his, the unknown individual's, previous attendance at a "Rocket Society Convention." According to the source, the above individuals likewise discussed various technical and scientific "articles" concerning rockets, artificial earth satellites, interplanetary travel and related matters which Robeson was reportedly translating from the Russian language.

According to the source, the unknown individual advised Robeson that at the "Convention" he had talked with Kraft Erma (phonetic), the "big shot," and "the young guy from Red Stone Arsenal" about the "articles" and that both had stated they would like very much to see them. In addition, the unknown individual advised Robeson that he had found Professor E. Fred Singer of the University of Maryland and that Singer already had the "articles" translated. The un-

known individual stated that he planned to recontact Singer and get Singer's advice on the selection of "articles" since Singer was having them translated and should have some kind of an editorial to contribute. The unidentified individual stated Robeson if Robeson had any objections to Singer donating some of his, Singer's, translations, especially the "technical ones."

In the light of the above information, it would appear that the "Convention" referred to was possibly the Twelfth Annual Meeting of the American Rocket Society which was held in New York City from December 2 to December 6, 1947. It would likewise appear that the above persons contacted by the unknown individual were possibly: Ralph Hirsch, reportedly an expert at Convair Astronautics, San Diego, California, and one of the Directors of the American Rocket Society; Siegfried Fred Singer, reportedly an associate professor at Maryland University and an authority on problems of space flight and advanced satellites as well as a member of the American Rocket Society; and a third unidentified individual.

For your additional information, there are enclosed herewith one copy each of two reports together with one copy of a memorandum concerning Tulkington and one copy each of six reports concerning Robeson. Information concerning Siegfried Fred Singer has previously been furnished to you.

It may be noted that the files of this Bureau contain no pertinent derogatory information concerning Siegfried Singer.

The above information is furnished for your confidential information and must not be disseminated outside the agency.

Any additional information received regarding this matter will be furnished to you promptly.

ATTENTION SAC, NEW YORK:

Reurairtel 12/11/57 concerning subject Robeson.

Remain alert for any additional information concerning the matter discussed in reairtel. Any such information should be furnished to the Bureau immediately.

YELLOW: Robeson is a key figure and Talkington an SI subject of New York Office. Above information furnished by a source It may be noted that Robeson, who was schooled in Russia, is a self-employed technical translator. Talkington is a free-lance advertising copywriter. In reairtel New York surmised that Talkington may have been attempting to sell Robeson's translations from Russian of scientific and engineering periodicals and journals to members of the American Rocket Society at their meeting. On basis of information furnished by the source, it is indicated that the "articles" involved are of Russian origin and of public source nature. No American articles appear to be involved. Main significance of above information appears to be the contact and possible association of prominent scientists in this country with Robeson and Talkington. It may be noted that Singer, described above, has been described by various informants as one who seems resentful of security regulations and often violates same. This letter classified "Confidential" inasmuch as the source which furnished it is inherently sensitive and inasmuch as the enclosures are so classified inasmuch as they contain information of national defense interest. DR. SIEGFRIED FRED SINGER - Summary

The results of a name check on captioned individual, who you advised was born on September 27, 1924, in Vienna, Austria, were furnished the Office of Naval Intelligence (ONI), by memorandum dated November 15, 1957. A copy of that memorandum is attached.

In May, 1958, we initiated a security-type investigation on Dr. Singer which was based on information received indicating a number of contacts between him and Soviet scientists. This investigation developed no information concerning subversive activity on the part of Dr. Singer. You may wish to contact the [REDACTED] for any additional data they may have in their files on Dr. Singer. [REDACTED]

ON APRIL 22, 1981, [REDACTED], CHAIRMAN, ENVIRONMENTAL
SCIENCES DEPARTMENT (ESD), UVA, CHARLOTTESVILLE, VIRGINIA, ADVISED
SA [REDACTED] THAT APPOINTEE HAS BEEN WITH HIS DEPARTMENT FOR
APPROXIMATELY TEN YEARS. HE STATED THAT SINGER HAS OUTSTANDING
CREDENTIALS IN THE FIELD OF ENVIRONMENTAL SCIENCES. OVER THE YEARS,
SINGER HAS DEVELOPED A BROAD KNOWLEDGE OF THE SCIENCES; AND EVEN
THOUGH NOT NECESSARILY THE STRONGEST IN KNOWLEDGE IN ANY PARTICULAR
FIELD, HIS BROAD BASE QUALIFIES HIS EXCELLENCE IN MANY VARIED
FIELDS. SINGER HAS BEEN AROUND THE WORLD ON MANY DIFFERENT PROJECTS
AND IT IS FELT THAT HE CAN EVALUATE PROGRAMS FOR A SCIENTIFIC BASIS.

[REDACTED] INDICATED THAT HE HAS NEVER HAD ANY REASON TO DOUBT
THE LOYALTY OR MORALS OF SINGER AS HE IS A VERY PROPER TYPE OF
INDIVIDUAL. SINGER MAINTAINS AN EXCELLENT REPUTATION AMONG THOSE
WITH WHOM HE HAS WORKED AND SOCIALIZED. HE IS OF STRONG CHARACTER
AND WELL CAPABLE OF HANDLING RESPONSIBILITIES. [REDACTED] ADVISED
THAT HE WOULD DEFINITELY RECOMMEND SINGER FOR A POSITION OF TRUST
AND RESPONSIBILITY WITH THE UNITED STATES GOVERNMENT.

ON APRIL 22, 1981, [], ASSOCIATE PROFESSOR, ESD, UVA, CHARLOTTESVILLE, VIRGINIA, ADVISED SA [] THAT HE CONSIDERS SINGER TO BE A STRAIGHTFORWARD INDIVIDUAL WHO IS EXTREMELY WELL EDUCATED AND POSSESSES A WELL BALANCED BACKGROUND. SINGER IS AN EXTREMELY KNOWLEDGEABLE INDIVIDUAL WHO HAS BEEN VERY SUCCESSFUL IN HANDLING ALL ASSIGNMENTS. HE CONSIDERS HIM TO BE AN EXCELLENT MANAGER WHO IS ABLE TO GET THINGS ACCOMPLISHED. HE FURTHER ADVISED THAT SINGER HAS THE BACKGROUND AND EXPERTISE TO BE ABLE TO EFFECTIVELY OPERATE IN A SCIENCE-POLITICAL ATMOSPHERE EVEN THOUGH HE DOES NOT NECESSARILY POSSESS THE GREATEST AMOUNT OF KNOWLEDGE IN A PARTICULAR FIELD AS HIS BACKGROUND HAS DEVELOPED A DEGREE OF EXCELLENCE WITH A BROAD

BASE OF KNOWLEDGE.

HE CONSIDERS SINGER TO BE A VERY PLEASANT INDIVIDUAL WHO GETS ALONG WELL WITH ALL. SINGER HAS AN EXCELLENT REPUTATION AMONG HIS CO-WORKERS. [] FURTHER ADVISED THAT HE WOULD DEFINITELY RECOMMEND SINGER FOR A POSITION WITH THE UNITED STATES GOVERNMENT.

NEIGHBORHOOD: ON APRIL 23, 1981, [], MANAGER, COLONNADE APARTMENTS, UVA, CHARLOTTESVILLE, VIRGINIA, ADVISED SA [] THAT SINCE 1971 TO PRESENT DATE, SINGER HAS BEEN A RESIDENT FOR MOST OF THE TIME AT THE APARTMENTS. ON MANY OCCASIONS, SINGER WOULD BE GONE; AND DURING THAT TIME, IT WAS UNDERSTOOD THAT HE WAS TEMPORARILY GONE FROM THE UNIVERSITY AND WAS TRAVELING ON VARIOUS PROJECTS. SINGER HAS RESIDED IN VARIOUS APARTMENTS DURING THE TIME HE HAS STAYED THERE. SINCE MOST OF THE INDIVIDUALS STAYING AT THE APARTMENTS ARE ONLY FOR A SHORT TERM, THERE ARE NO PRESENTLY NO INDIVIDUALS STILL RESIDING IN THE APARTMENTS WHO WOULD HAVE BEEN THERE DURING THE TIME SINGER WAS LIVING THERE. HE DID STATE THAT HE HAS NEVER HEARD ANY INFORMATION OF A DEROGATORY NATURE CONCERNING SINGER AND THAT HE HAS NEVER HAD ANY PROBLEMS WITH HIM.

EMPLOYMENT

University of Maryland
College Park, Maryland

On April 22, 1981, SA [redacted] made the following investigation at the University of Maryland, College Park, Maryland.

[redacted], Personnel Office, advised the appointee was hired as an associate professor in the Department of Physics, effective September 1, 1953. He was made a professor effective July 1, 1959. The appointee continued to serve as a member of the faculty until June 30, 1964. He was on leave without pay from September, 1961, until September, 1963. The appointee resigned to accept a Deanship at the University of Miami, Coral Gables, Florida.

During June, 1966, the appointee was hired as a visiting professor. He gave numerous lectures and seminars for the Department of Physics as a noted authority on space physics and the earth's radiation belt. [redacted], who was then Chairman of the Department of Physics and is no longer at the University of Maryland, wrote the following concerning the appointee's appointment as a visiting professor. Dr. S. Fred Singer directed a vigorous research program in space physics at the University of Maryland during his tenure. He also contributed greatly to the worldwide understanding of cosmic rays; the earth's radiation belt (still called Singer Belts in many areas of Scandinavian countries); and planetary atmospheres.

On April 23, 1981, Dr. John S. Toll, President, advised that in 1953, he had been the Senior Professor and Chairman of the Department of Physics. Dr. Toll had done graduate at Princeton University with the appointee and had maintained contact with the appointee while the appointee was employed at the Applied Physics Laboratory of Johns Hopkins University, under Dr. Van Allen. Dr. Toll was responsible for hiring the appointee as an associate professor. Dr. Toll explained that the appointee was so extensively into research that he was relieved of all teaching responsibilities for a two or three period near the end of his tenure. The appointee held a position as director, United States Weather Bureau, concurrently during most of

this time. Dr. Toll said the appointee is a brilliant and dedicated individual. His character, morals, loyalty, and associates are excellent. Dr. Toll highly recommended the appointee for a position of trust and responsibility with the government. Dr. Toll was listed as a reference. He added that he continues to see the appointee on an infrequent basis three or four times a year at professional functions as well as purely social get-togethers. Dr. Toll said that in reviewing the faculty at the University of Maryland, he could find no one who knew or worked with the appointee. He added that [redacted], former instructor and associate, was currently the Dean, College of Arts and Sciences, University of Iowa, Ames, Iowa. [redacted] probably was the person closest to the appointee while both were at the University of Maryland.

b6
b7C

[redacted] Executive Secretary, Office of the President, advised she knew of the appointee in 1953, when he became a member of the faculty and got to know him personally in about 1955 through his dealings with the Office of the President. Since Dr. Toll has become President, [redacted] has seen the appointee more often as he is a close friend of [redacted] considers the appointee to be a mature, conscientious, intelligent, hardworking, and dependable individual. His character, morals, loyalty, and associates meet the highest standard. [redacted] highly recommended the appointee for a position of trust and responsibility with the government.

On 4/22/81, the following investigation was conducted by SA [redacted] concerning the appointee, Ziegfried Fred Singer:

b6
b7C

[redacted] Univeristy Corporation for Atmospheric Research, 2600 Virginia Avenue, N.W., Washington, D.C., advised that he has known the appointee on a professional basis only since approximately 1962. [redacted] verified that the appointee worked at the Weather Bureau. [redacted] stated that he believed that the appointee dates of employment, June, 1962 to June, 1964, sounded correct to him. While at the Weather Bureau, the appointee was the head of satelite activities and the National Weather Satelite Center.

[redacted] described the appointee as stimulating and innovative. The appointee's performance was good and he was responsible for founding the National Weather Satelite Center. The appointee left the Weather Bureau to return to academic life at the University of Miami at Florida. [redacted] was also aware that the appointee worked for the Department of Interior and he believed that he was presently employed by the University of Virginia at Charlottesville, Virginia.

[redacted] described the appointee as initially stable, dependable, cooperative, conscientious and discreet. [redacted] knew of problems regarding drugs or alcohol and he knew of no reason to question the appointee's character, associates, reputation or loyalty to the United States Government. [redacted] highly recommended the appointee for a position of trust and confidence.

Security Record

SA [redacted] caused a search to be made of the files of the Security Office, Department of Commerce (DOC), and was advised on 4/12/81, that Siegfried Fred Singer, born 9/27/24, received on 9/20/62, from the DOC a secret clearance as he was assigned to the Weather Bureau. On 2/15/63, his clearance was upgraded to a top secret based on background investigations completed by the FBI in 1951 and 1959. On 5/16/64, he left the DOC and his clearance was withdrawn. The available record concerning Singer contained no adverse information.

EMPLOYMENT

Department of Interior
Washington, D.C.

On 4/23/81, the following investigation was conducted by SA [] concerning the appointee, Ziegfried Fred Singer:

[] Everett and Associates, Rockville, Maryland, advised that he has known the appointee both professionally and socially since 1969. [] first met the appointee while the appointee was employed at the Department of Interior. [] was originally scheduled to replace the appointee as the Deputy Assistant Secretary for Scientific Programs. [] never actually replaced the appointee in that position and the position was reassigned to the Environmental Protection in December, 1970.

[] advised that while the appointee was the Deputy Assistant Secretary for Scientific Programs, he travelled a great deal and that he, [], actually ran the day to day operations of the office. The appointee was extremely energetic and worked on numerous special projects, notably in developing new legislation in ocean and population programs. [] described the appointee as dignified, very bright, very inquisitive, and innovative. The appointee is widely known in the scientific community and is well respected in his field of expertise.

[] stated that the appointee was in an emotionally stable person who got along well with other co-workers. He further described the appointee as dependable, cooperative, conscientious, and discreet. [] knew of no problems regarding drugs or alcohol and he knew of no reason to question the appointee's character, associates, reputation or loyalty to the United States Government.

[] stated that he would recommend the appointee for a position involving the stimulation of thoughts and research. In that area [] noted that the appointee was outstanding. [] further stated, however, that he would have some reservations about recommending the appointee for a position involving the administration of a major program.

[] felt that because he did not see the appointee actually in action administratering a program he could comment further. If the appointee were to be appointed to a program in administration type position, [] felt that further questions would need to be asked concerning his abilities in that area.

b6
b7C

[], Chief, Ocean Programs Branch, Environmental Protection Agency, Washington, D.C., advised that he has known the appointee for at least the last 25 years. [] advised that the appointee was a Deputy Assistant Secretary for the Department of Interior from June, 1967 to December, 1970. While a Deputy Assistant Secretary, the appointee was the science advisor to the assistant secretary and in addition he directed a study on estuaries and coastal zone management.

[] stated that the appointee's performance was excellent and he "kept the Department of Interior out of professional trouble." [] described the appointee as being very to the point, and as having a very dry sense of humor. The appointee was extremely professional in grasped concepts without a great deal of difficulty. The appointee was very capable of determining what action was necessary in any given situation and then taking it. In addition, the appointee had a "low tolerance for snow jobs."

The appointee is an emotionally stable individual and he got along well with his co-workers, in fact, [] described him as being like a "rock." In addition, [] described the appointee as dependable, cooperative, conscientious and discreet.

[] knew of no problems regarding drugs or alcohol and he knew of no reason to question the appointee's character, associates, reputation or loyalty to the United States Government. [] highly recommended the appointee for a position of trust and confidence and concluded by stating that the government could not help benefit through his employment.

CLOSE PERSONAL ASSOCIATE

On April 23, 1981, the following investigation was conducted by SA [redacted] concerning the appointee, Siegfried Fred Singer:

[redacted] Acting Director, Academic Affairs Division, National Aeronautics and Space Administration, Washington, D. C., advised that he has known the appointee both professionally and socially since 1958. He and the appointee met while they were working on the passage of the 1958 Space Act. [redacted] believed that the appointee was employed by the University of Maryland at the time.

[redacted] further advised that the appointee married late in life, just two years ago, and that his wife brought three children by a former marriage into the marriage. [redacted] described the appointee as brilliant, "one of the smartest people" he'd ever met. The appointee is an "unusually penetrating thinker," and a good writer. [redacted] further described the appointee as dependable, cooperative, conscientious and discreet.

[redacted] pointed out that the appointee was the first Director of the National Weather Satellite Center in the 1960s. The appointee also worked for the Department of the Interior. [redacted] was unable to verify that the appointee worked for the Environmental Protection Agency. [redacted] did advise that the appointee served on the National Board of the American Association for the Advancement of Science.

[redacted] knew of no problems regarding drugs or alcohol and he knew of no reason to question the appointee's character, associates, reputation or loyalty to the United States Government. [redacted] recommended the appointee for a position of trust and confidence without reservation.

On 4/24/81, [redacted] Professional Staff Member, Senate Committee on Commerce, Science and Transportation, advised SA [redacted] as follows:

[redacted] first came to know the appointee, Dr. S. Fred Singer, in approximately the Fall of 1971. At the time [redacted] first came to know the appointee, Dr. Singer had just joined the faculty of the University of Virginia, having previously been affiliated with the Environmental Protection Agency. [redacted] was, himself, the Associate Provost of Research at the University of Virginia at that time.

[redacted] has known Dr. Singer both as an academic colleague and as a personal friend since that time. Dr. Singer is a physicist and has been involved in the fields of astro physics as well as in environmental economics. He is highly regarded by his professional colleagues. [redacted] was also complimentary in his remarks concerning the character, integrity, loyalty and associates of Dr. Singer. He is aware that Dr. Singer is being considered for a Presidential appointment and it is his belief that Dr. Singer is eminently qualified for such an appointment. [redacted] recommends Dr. Singer, without reservation, for a position of trust and responsibility.

INTERVIEW OF APPOINTEE

On 4/27/81, the following investigation was conducted by SA [] concerning the appointee, Siegfried Fred Singer:

The appointee was advised that the Brookings Institution stated that his dates of employment as a Federal Executive Fellow were from 5/1/71 to 4/30/72. The appointee responded that these dates were completely incorrect. The appointee further advised that in August of 1971 he took a position with the University of Virginia at Charlottesville, Virginia and in August, 1971 moved to Charlottesville, Virginia that is making it impossible for him to be employed at the Brookings Institution in April, 1972. The appointee maintained that he was employed by the Environmental Protection Agency and was detailed to the Brookings Institution from December, 1970 to August, 1971.

The appointee also recalled being a Guest Scholar at the Brookings Institution from 5/1/77 to 9/30/77. At that time the appointee was working on turning a study on the Economics of Oil Power into a paper for presentation. The appointee stated that this period from May to September, 1977 was during the summer break from his duties at the University of Virginia.

ORGANIZATIONS

American Association for the Advancement of Science
Washington, D.C.

On 4/23/81, the following investigation was conducted by SA [redacted] concerning the appointee, Ziegfried Fred Singer:

[redacted] Assistant to the Executive Officer, advised that she has known the appointee professionally for the past 10 years. The appointee has been a member in good standing of the American Association for the Advancement of Science as long as she has known him and she believed for much longer than that. The appointee is presently the secretary of the section on General Sciences and as such is responsible for arranging programing for the annual meeting. The appointee was formerly the chairman of the committee on American Association for Advancement which is no longer in existence and a member of the Council Affairs Committee.

[redacted] described the appointee as dependable, cooperative, conscientious and discreet. She knew of no questionable or derogatory information concerning the appointee. [redacted] knew of no problems regarding drugs or alcohol and knew of no reason to question the appointee's character, associates, reputation or loyalty to the United States Government. [redacted] highly recommended the appointee for a position of trust and confidence.

National Weather Service (NWS)
National Oceanographic and Atmospheric Administration (NOAA)
5200 Ault Road
Camp Springs, Maryland

The following investigation was conducted by
SA [redacted]:

On April 22, 1981, [redacted], National Meteorological Center, NWS, stated that he recalled the appointee, Fred Singer, as being in charge of the National Weather Satellite Center with the old National Weather Bureau during a two year period, from 1962 to 1964. [redacted] stated that at that time he was the Chief of a division in the National Meteorological Center and had frequent professional contact with the appointee. He stated that Singer's duties involved the overseeing of research and development with a heavy emphasis on engineering. Singer was the Director of the Satellite Center when the first weather satellite was launched and he was instrumental in the early success of this program.

b6
b7C

[redacted] stated that Singer was considered to be a competent individual in his field and always demonstrated a great deal of enthusiasm for the weather satellite program. He further stated that the appointee was very adept in dealing with political pressures and described him as a "good politician". [redacted] said that he felt Singer was very effective in implementing his programs and ideas and felt that he always demonstrated a great deal of leadership ability. He said that he never had any social contact with the appointee and has had very little if any contact with Singer since he left the agency. He stated that as far as he knew, the appointee left because of better career opportunities elsewhere.

[redacted] said that he had no reason whatsoever to question the character, associates, reputation or loyalty of Fred Singer and even though it has been several years since he has had any contact with the appointee, he would have no reason for not recommending him for a position of trust with the Federal Government.

On April 22, 1981, Mr. Harlan Saylor, Deputy

Director, National Meteorological Center, stated that he was acquainted with the appointee when he (the appointee) served as the Chief of the Satellite Center from 1962 to 1964. He stated that he always considered Singer to be very professionally competent, however, quite frequently his enthusiasm brought him into personality conflicts with others with whom he dealt with. Mr. Saylor stated, however, that Singer was considered to be very professionally competent and he felt that in the long run the appointee's drive and enthusiasm contributed significantly to the success of the weather satellite program. He stated that he never had any contact with the appointee away from the office and had no contact with him since Singer left the agency. He said that during his period of association with the appointee, he knew of nothing which would reflect adversely on the appointee's loyalty, integrity, or moral character, and that from a personal and professional standpoint, he would have no reason for not recommending him for a position of trust with the Federal Government.

On April 22, 1981, [redacted], Chief Predictions Branch, Climate Analysis Center, NWS, stated that he worked with the NWS at the same time as Fred Singer and that he had occasional contact with the appointee. He stated that Singer did not exercise any direct supervision over him, but that he would occasionally brief the appointee on matters and programs connected with his office.

b6
b7c

[redacted] stated that he always considered the appointee to be professionally qualified for his job as the Chief of the Satellite Center. He said that Singer had a good background as a physicist and was very energetic from a managerial point of view. He stated that the appointee pushed his agency hard and insisted on excellence in its performance. He stated that he has had some social contact with the appointee since Singer left the agency, since they have some mutual friends.

[redacted] stated that he had a great deal of respect for the appointee from a professional standpoint and would know of nothing in Singer's background which would reflect adversely on his personal life. He stated that he had no reservations whatsoever regarding the appointee's character, associates, reputation, loyalty, or professional competence, and would be happy to recommend him for a position with the Federal Government.

On April 22, 1981, [redacted] Climate Analysis Center, NWS, stated that he was acquainted with the appointee, Fred Singer, when Singer was in charge of weather satellite activities during the period 1962 to 1964. [redacted] stated that at that time he was a branch chief under Singer's direction, and that he always enjoyed a good professional relationship with the appointee. He stated that Singer earned and maintained a good professional reputation with the agency as a quick, innovative thinker. He stated that the appointee would never hesitate to promote his ideas and found himself in frequent disagreement with the National Aeronautic and Space Administration (NASA). [redacted] stated that he recalled one particular incident involving the decision to use a tiros weather satellite or a nimbus satellite. He stated that NASA was pushing the use of the nimbus satellite as a successor to the tiros, but Singer was committed to the continued use of the tiros and in the end his views prevailed. [redacted] stated that he felt that as a result, the use of the tiros worked out much better from both an economical and a technical standpoint.

[redacted] stated that his relationship with the appointee was strictly professional and that they had no social contact away from work. He stated, however, that he had never observed or been given any reason to question any aspect of Singer's personal life and would have no reservations whatsoever regarding his loyalty, integrity, or moral character. [redacted] stated that he felt he could confidently recommend Fred Singer for a position of trust with the Federal Government.

On April 23, 1981, SA [] was advised that [] Department of the Interior, was out of the Washington, D. C., Metropolitan area and would not return to the office until Monday, April 27, 1981.

On April 27, 1981, [], Staff Assistant, Office of Environmental Project Review, Department of the Interior, Washington, D. C., advised that she has known the appointee professionally for seventeen years. In June of 1964, she became the appointee's Secretary while he was a Dean at the University of Miami, Coral Gables, Florida. In June, 1967, the appointee accepted an appointment as a Deputy Assistant Secretary with the Department of the Interior in Washington, D. C. Burke came to Washington, D. C., with the appointee with the intention of only staying three months to help him set up his new office. [] advised that she decided *to stay* in the Washington area and work for the appointee as his Secretary until December, 1970. In December, 1970, the Environmental Protection Agency was broken off of the Department of the Interior. At that time, the appointee was carried on the Environmental Protection Agency's payroll, however, he was assigned to the Brookings Institute. The appointee never did actually work for the Environmental Protection Agency at its offices in Washington, D. C. His entire time was spent at the Brookings Institute. The appointee left the Brookings Institute in August, 1971.

[] characterized the appointee's performance as "extremely good" and stated that he was an excellent researcher and a very good administrator. [] further described the appointee as dependable, cooperative, conscientious, and discreet. She stated that the appointee was an emotionally stable individual and got along well with others.

REFERENCE

On April 27, 1981, the following investigation was conducted by Special Agent (SA) [REDACTED] concerning the appointee, Siegfried Fred Singer:

Repeated attempts to contact appointee's listed reference, John E. Safer, on April 22, 1981, through April 24, 1981, proved negative.

On April 27, 1981, John E. Safer, Chairman of the Board, D. C. National Bank, 1801 K Street, N. W., Washington, D. C. (WDC), advised that he has known the appointee on a social basis only since 1953. Safer further advised that he met the appointee at a social gathering while the appointee was a Professor at the University of Maryland. Safer was not familiar with the appointee's employment background. He was unable to verify the appointee's employment with the Environmental Protection Agency, however, he was aware that approximately ten years ago, the appointee was a Deputy Assistant Secretary with the Department of the Interior in Washington, D. C.

Safer was not aware of any organizations that the appointee belonged to other than the Cosmos Club, of which they were both members here in Washington, D. C.

Safer advised that the appointee had been married for approximately one year and has two adopted children by his wife's previous marriage. Safer described the appointee as very calm, judicious, professional, reliable, conservative, as a "professional scientist". Safer further described the appointee as unquestionably dependable, cooperative, conscientious, and discreet.

Safer knew of no problems regarding drugs or alcohol and he knew of no reason to question the appointee's character, associates, reputation, or loyalty to the United States Government. Safer recommended the appointee for a position of trust and confidence without reservation.

The following investigation was conducted past the Bureau deadline due to lead developed on April 23, 1981.

[redacted], Advanced The Studies Program, Brookings Institution, 1725 Massachusetts, N. W., Washington, D. C. (WDC), advised that the appointee did research at the Brookings Institution on two separate occasions. From May 1, 1971, to September 30, 1977, the appointee was a "guest scholar" doing research at the Brookings Institution. From May 1, 1971, to April 30, 1972, the appointee was a "Federal Executive Fellow" doing research at the Brookings Institution. In both instances, the appointee received no compensation and the records do not reflect what type of research the appointee was doing. While a Federal Executive Fellow, the appointee was leave from the Environmental Protection Agency.

[redacted] was unable to provide any additional information concerning the above.

ORGANIZATIONS

American Geophysical Union

Repeated attempts to contact Fred Spilhaus, Executive Director, American Geophysical Union (AGU), from April 23, 1981 were unsuccessful.

On April 29, 1981, the following investigation was conducted by Special Agent (SA) [redacted] concerning the appointee, Siegfried Fred Singer:

b6
b7C

Dr. A. Frederic Spilhaus, Executive Director, AGU, advised that he has known the appointee on both a professional and social basis for the past twelve years. The appointee is currently a member of the AGU and has held no office. The appointee first joined the AGU in 1951.

Dr. Spilhaus described the appointee as enthusiastic, scientifically intelligent and as a "solid citizen type." Dr. Spilhaus further advised that the appointee sometimes appears aloof and is considered by some people to be "a little flighty in ideas." Dr. Spilhaus further described the appointee as dependable, cooperative, conscientious and discreet.

Dr. Spilhaus stated that the appointee was an emotionally stable individual and he knew of no problems regarding drugs or alcohol. Dr. Spilhaus knew no reason to question the appointee's character, associates, reputation or loyalty to the United States Government and he highly recommended the appointee for a position of trust and confidence.

Agency Check

Records of the Division of Personnel Investigations, Office of Personnel Management indicate that several individuals were interviewed at the University of Miami, Coral Gables, Florida, during March, 1967, who indicated that although Dr. Singer was "very intelligent" and "extremely competent" in his field, he was too aggressive in his administration as Dean of the School of Environmental and Planetary Sciences. The records further indicate that as a result of his lack of administrative ability, he was asked to resign from his position as Dean, which he did, and resume teaching assignments. The records show that most of those persons interviewed would not recommend Dr. Singer for any administrative post but would do so if the position in question were purely scientific in nature.

The remainder of the 1967 investigation was reviewed however, no additional pertinent information was obtained.

S. FRED SINGER
(January 1985)

Fred Singer, Professor of Environmental Sciences at the University of Virginia since 1971, is Vice Chairman of NACOA. He is currently on leave, as Eminent Scholar at George Mason University, in Fairfax, Virginia. After serving in the U.S. Navy, he began his career in 1946 at the Applied Physics Lab/Johns Hopkins University in upper atmosphere rocket research. From 1950-53, he was Scientific Liaison Officer at the Office of Naval Research, U.S. Embassy, London. He was Professor of Physics at the University of Maryland from 1953-62, and served as the first Director of the National Weather Satellite Center of the U.S. Weather Bureau/Department of Commerce from 1962-64. From 1964-67, he was Professor and Dean of the School of Environmental and Planetary Sciences at the University of Miami. He rejoined the Federal Government, serving as Deputy Assistant Secretary of Interior of Water Quality and Research, from 1967-70, and as Deputy Assistant Administrator of EPA in 1971. During 1982-83, he held an appointment as Senior Fellow for Natural Resources Policy at the Heritage Foundation.

Dr. Singer has been a consultant to Congress, the General Accounting Office and the Office of Technology Assessment, to the White House Science Office, Treasury and Energy Departments, and to the National Science Foundation and NASA. He currently is a member of the State Department Scientific Advisory Committee on Oceans, Environment, and International Scientific Affairs.

He has been active in professional organizations, most recently in the American Geophysical Union and the American Association for the Advancement of Science, where he has held various elective offices. He has received many honors, including a Presidential Commendation and the Gold Medal Award of the Department of Commerce for his contributions to operational weather satellites.

He has published numerous technical and general articles on the physics of the Earth and solar system, and on the physical environment with special emphasis on water resources, the atmosphere, oceans, and space. He has written and edited several books, and writes extensively for newspapers and magazines on public policy problems involved with resources and environment, especially on energy policy and related international issues.

Fred Singer has served as a consultant to major corporations in the aerospace, energy, and environmental areas. Currently, he also is a Director of AMREP Corporation (NYSE) and serves on the Audit and Executive Committees.

Dr. Singer holds a B.E.E. and a D. Sc. (hon.) from Ohio State University, and A.M. and Ph.D degrees in physics from Princeton University.

Dear Mr. Culvahouse:

In accordance with a request received from your office on November 23, 1988, an expanded name check has been conducted concerning Mr. Siegfried Fred Singer.

Transmitted herewith is a summary memorandum containing the results of this expanded name check.

A name check was conducted concerning Mr. Singer in March, 1983. The results of that name check are enclosed. Several background investigations have been conducted concerning Mr. Singer, the most recent having been in May, 1983. The results of that investigation were previously provided to you.

Sincerely yours,

Floyd I. Clarke
Assistant Director

SIEGFRIED FRED SINGER

This summary memorandum contains the results of an expanded name check concerning Mr. Singer.

Agency Checks

Information has been received from the United States Attorney's Offices in Washington, D. C., and in Alexandria, Virginia, which cover the areas where Mr. Singer currently resides and is employed, indicating its files contain no record concerning him.

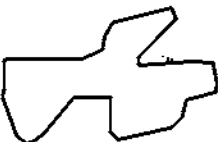

Searches of the various indices of the FBI, including but not limited to the central index maintained at FBI Headquarters, the index of the Identification Division, the indices of appropriate field offices and other appropriate computer data bases, did not identify any documents that contain pertinent information identifiable with Mr. Singer, except the following:

Mr. Singer was the subject of a name check* conducted by the FBI in March, 1983, in connection with an unspecified Presidential appointment. Several background investigations* have been conducted concerning Mr. Singer, the most recent having been in May, 1981, in connection with an unspecified Presidential appointment.

It should be noted that the currency of the data input into the various indices can vary from days to even months from the date of the document as a result of existing clerical backlogs throughout the FBI.

SIEGFRIED FRED SINGER

This summary memorandum contains the results of an expanded name check concerning Mr. Singer.

Agency Checks

Information has been received from the United States Attorney's Offices in Washington, D. C., and in Alexandria, Virginia, which cover the areas where Mr. Singer currently resides and is employed, indicating its files contain no record concerning him.

Searches of the various indices of the FBI, including but not limited to the central index maintained at FBI Headquarters, the index of the Identification Division, the indices of appropriate field offices and other appropriate computer data bases, did not identify any documents that contain pertinent information identifiable with Mr. Singer, except the following:

Mr. Singer was the subject of a name check conducted by the FBI in March, 1983, in connection with an unspecified Presidential appointment. Several background investigations have been conducted concerning Mr. Singer, the most recent having been in May, 1981, in connection with an unspecified Presidential appointment.

It should be noted that the currency of the data input into the various indices can vary from days to even months from the date of the document as a result of existing clerical backlogs throughout the FBI.
